“INNOVATIVE” DNA Throughout The Next Century

In May 2017, TOTO ushered in the 100th anniversary of the establishment. We look forward to tomorrow and the future, to provide people beyond expectations “every day”.

TOTO CLEANOVATION

Clean gives peace of mind

Clean makes life beautiful

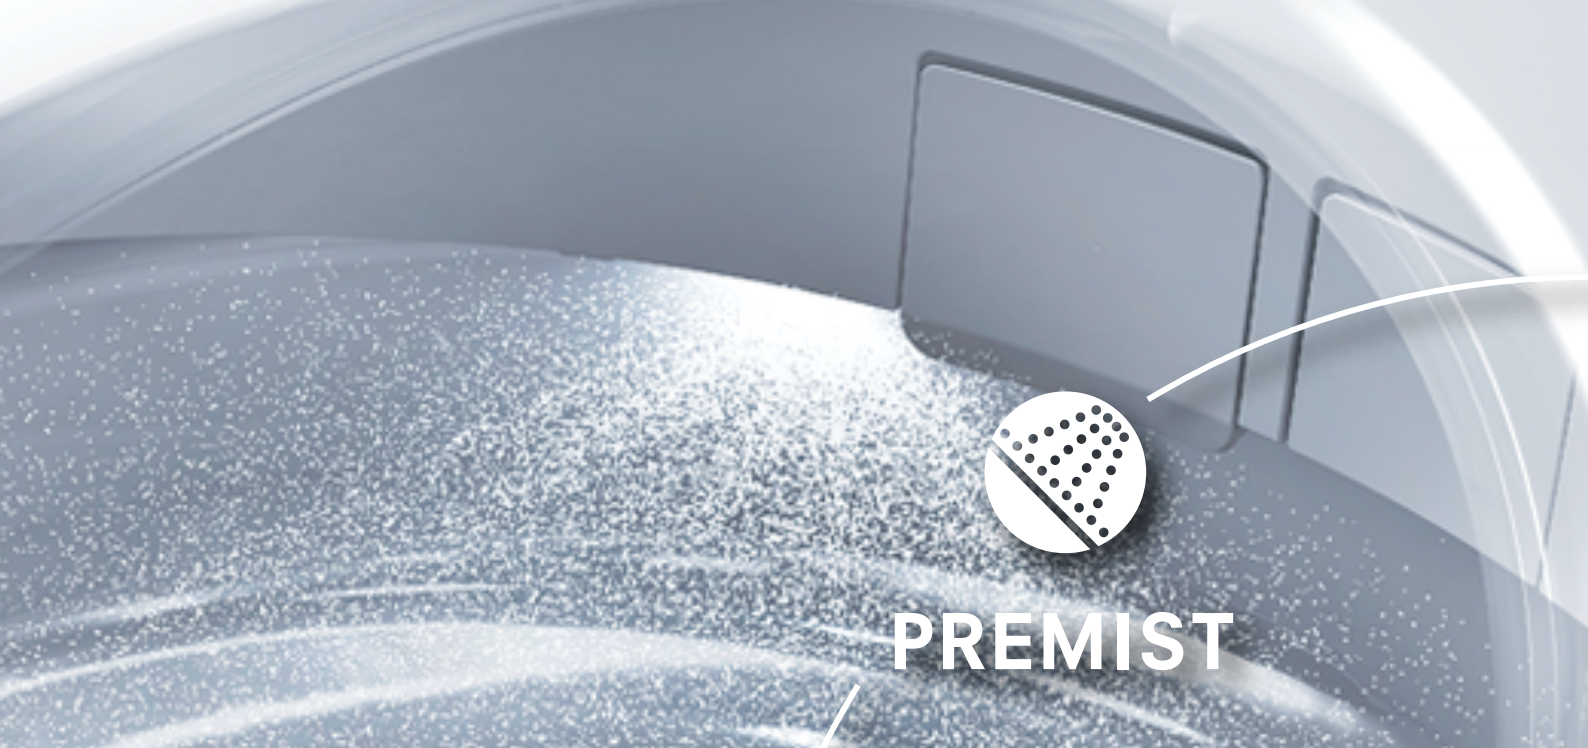

Clean feels refreshing

Clean is caring for people and the planet

Clean brings wellness to everyday life

TOTO innovation brings a new world of clean to life,
enriching every moment of every day.

Always Innovating to Spread a Culture of Everyday Comfort and Cleanliness.

Since its launch in the 1980s, WASHLET has continually evolved through the invention of countless innovative clean technologies. This is also our history of creating—and spreading around the world—a new culture of comfort and cleanliness through the shift from only wiping with toilet paper to cleansing with water.

In 2019, it broke through the milestone of fifty million total units sold. As a worldwide best seller, TOTO will continue pursuing technological innovation to make the lives of people everywhere fresher and richer.

Environment Sustainability

Conserving water

Conserving water - products

We continue to promote the reduction of water consumption during product use by developing water-efficient and comfortable products and distributing them on a global scale.

Conserving water - manufacturing

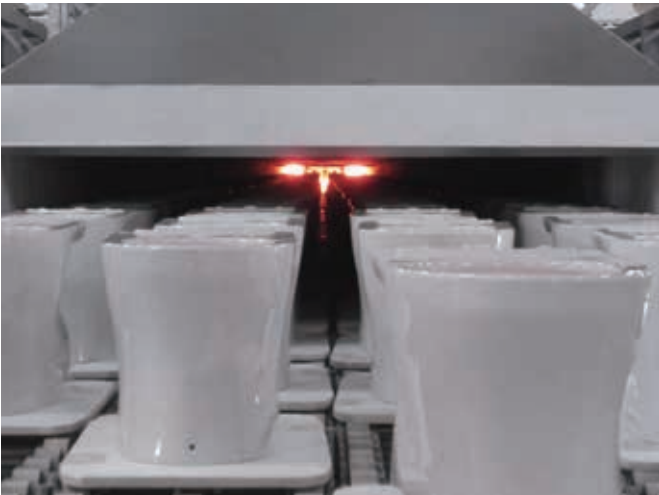

We promote water resource preservation at production sites by recycling and reusing water used in the production phase.

Preventing global warming

Procurement of renewable energy

By 2040, We will source 100% of its energy needs from renewable sources.

Green factory - initiatives

The new generation of kilns reduces CO2 emission by 40%.

TOTO Water Environment Fund

For the regions where international assistance is needed, we aim for sustainable development through supporting organizations that engage in water-related environmental activities related to water, rather than through providing temporary material/financial support.

Current main activities

Foundation for International Development/Relief(FIDR)
Operation : Vietnam

Japan Asian Association & Asian Friendship Society(JAAS)
Area of Operation : The Republic of the Philippines

WaterAid Japan
Area of Operation : Kingdom of Eswatini

HOPE International Development Agency Japan
Area of Operation : Ethiopia

Confront World
Area of Operation : Uganda

Bridge for lives in Mozambique
Area of Operation : Mozambique

It is a fund established by TOTO in 2005 in order to achieve a sustainable society through support for civilian organizations that engage in water-related environmental activities.

History of activities

- Year of establishment **2005**
- Total amount of grants **391.8** million JPY
- Number of funded organizations **289** in total

We agree with the international initiatives toward the realization of a carbon-neutral and sustainable society

Understated Presence

Our wish is to provide,
as an integral part of everyday life,
enrichment to every person.
Our goal is to design products
with integrity and longevity,
to which people form an attachment over time.

Weaving together spaces that are beautiful and comfortable,
and experiences that are pleasant.

This is the TOTO design.

The three elements that bring the TOTO Design Philosophy to life.

Design Elements

Gentle to people

- A part of everyday life
- Offers peace of mind
- Gentle to the human body

Comfortable

- Harmonizes with space
- Pleasant interface between people and objects
- Beautiful appliance

Sincere on Beauty

- Users find it pleasurable
- Retains beauty over time
- Creating a sustainable future

TOTO Reigns Supreme for 19 Consecutive Years in Japan

WASHLET G receives Mechanical Heritage Certification

WASHLET G

Date of Certification : 7th August, 2012
Organization : The Japan Society of Mechanical Engineers
Certified Product : Mechanical Heritage Certification No.55

WASHLET G (warm-water spray seat)
Explanation of the certified product

First-class Architects' Preferred Sanitaryware Brand for 19 Consecutive Years in Japan

Title - Ranking of building materials and Brand that architects would like to use in Japan
Publication - Nikkei Architecture Sept/Nov, (2005-2023) "special feature" - Published in Japan
Publishing - Nikkei BP Consulting, Inc. Company

*"Building Materials and Brand Ranking", an independent survey of first-class architects in Japan on building materials and equipment manufacturers they would like to use.

TOTO was ranked first in the "Toilet" category, and reigned at the top position for 19 consecutive years. Those who would like to use TOTO products particularly value their "functionality" and "design."

DESIGN AWARD

An internationally renowned design award since 1953. It is held at iF International Forum Design GmbH in Hannover, Germany. Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.

ICON GUIDE

TOILET & WASHBASIN

ACTILIGHT		Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.
EWATER+		Ewater+ sprays the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.
CEFIONTECT		Advanced CEFIONTECT glaze creates an ultra-smooth surface that resists dirt and buildup, keeping ceramics cleaner for longer with less water and chemical use.
PREMIST		A film of water keeps waste from sticking onto the toilet bowl.
TORNADO FLUSH		360° cleaning power reaches every spot using less water.
RIMLESS		The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.
AIR-IN WONDER-WAVE		AIR-IN WONDER-WAVE uses air-rich water to create a comfortable washing sensation while ensuring better cleansing with less water.
LINEARCERAM		Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.
WATER SAVING		Innovative design that minimizes water usage with every flush, ensuring efficiency and environmental sustainability.

COMFORT TECHNOLOGY

AUTO FUNCTIONS		Product featuring integrated and automated sensor-activated functions.
HEATED SEAT		The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.
DEODORIZER		Highly- effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.
WARM AIR DRYING		The warm air dryer works in sync with the water spray for a fresh, dry feeling.

FAUCET

SOFT FLOW		Elegant streams of water gently touch skin. A premium calming experience. Soft and soothing.
COMFORT GLIDE		Comfort goes beyond ease of movement, lasting ease of use becomes true comfort. That's why TOTO designed an internal valve based on user touch, ensuring smooth, reliable operation.
ECO CAP		A feature that mixes air with water to reduce water usage while still providing an effective wash, helping to conserve resources without compromising performance.
ECO POWER		A touchless faucet technology that generates its own electricity using water flow, eliminating the need for external power sources and promoting energy efficiency.

SHOWER

WARM SPA		Embraced in warmth, relaxed & Ready for rest Gentle stream of warm water that envelopes the body.
GYROSTREAM		A rotating shower nozzle with pulsating water stream that creates a massaging effect.
COMFORT WAVE		Experience the sensation of large droplets of water, richly dense and pleasing to the scalp, delivering a luxurious sense of comfort with every use.
INTENSE WAVE		A stimulating water stream that provides a more vigorous showering experience. Ideal for relaxing tired muscles or kickstarting your day.
ACTIVE WAVE		Stimulating to both body and mind, awakening the senses with every moment.
INTENSE WAVE+		Enhanced with stronger water pressure, offering an even more intense, revitalizing flow for ultimate relaxation and stimulation.
SAFETY THERMO		SMA Thermostatic Valve Technology uses a responsive Shape Memory Alloy coil to quickly adjust water temperature for a safer shower experience.
HEAT PROTECT		Prevents burns by covering hot water paths with a layer of cold, ensuring safety and comfort with a beautifully designed fixture for a more pleasant bath experience.
MINI UNIT		Unified exterior sizes for concealed shower valves creating a balanced bathroom space.

BATH TUB

ZERO DIMENSION		ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.
HYDROHANDS		Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.
RECLINE COMFORT		A reclined bathing position that supports the neck and back, delivering a deep sense of relaxation and tranquility for a rejuvenating experience.

DESIGN AWARDS

The Red Dot is an award for high-quality design an international jury only awards this sought-after seal of quality to products that feature outstanding design

The iF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

PURE LUXURY

CLEAN TECHNOLOGY

Ensuring lasting cleanliness
for your peace of mind

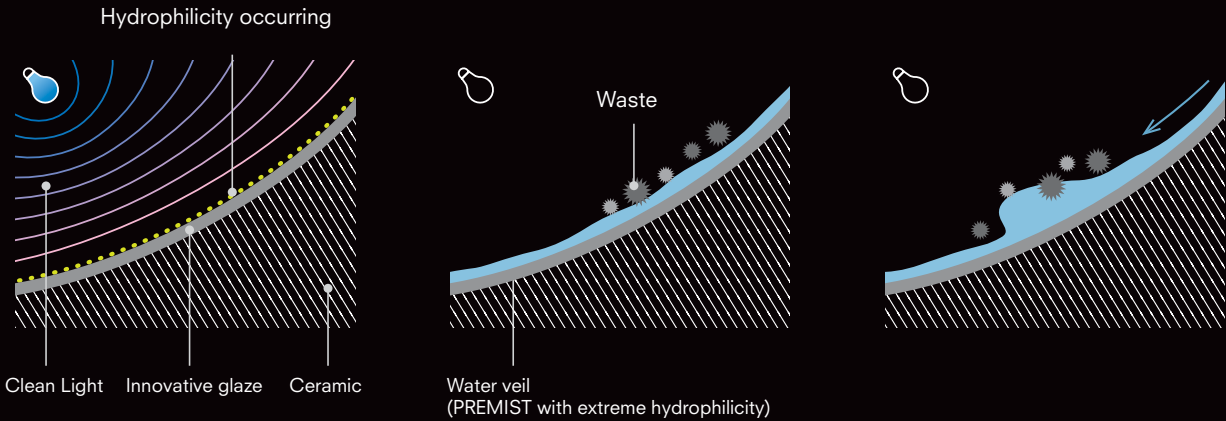

Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.

CLEAN Light and the extraordinary surface treatment enable easy removal of even microscopic debris and particles.

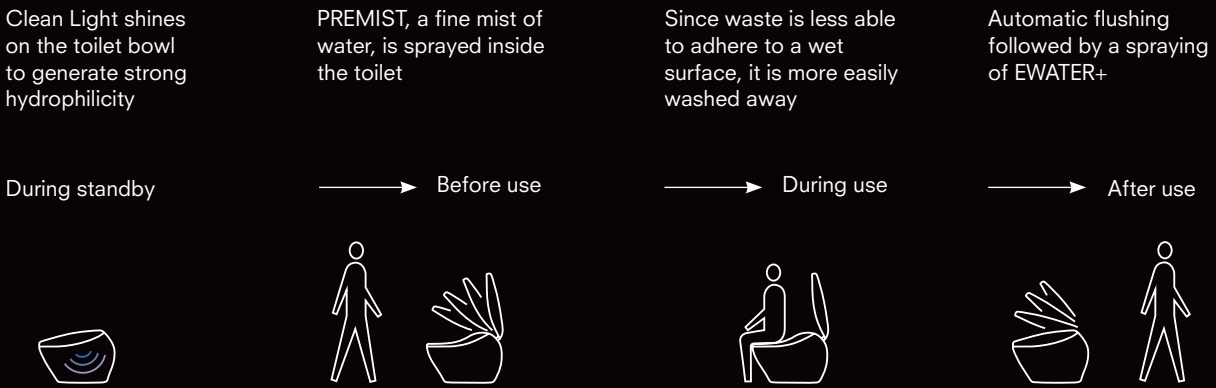

State-of-the-art materials

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to attract water to the surface and keep the surface clean after use.

Operates 24 hours a day to maintain clean conditions

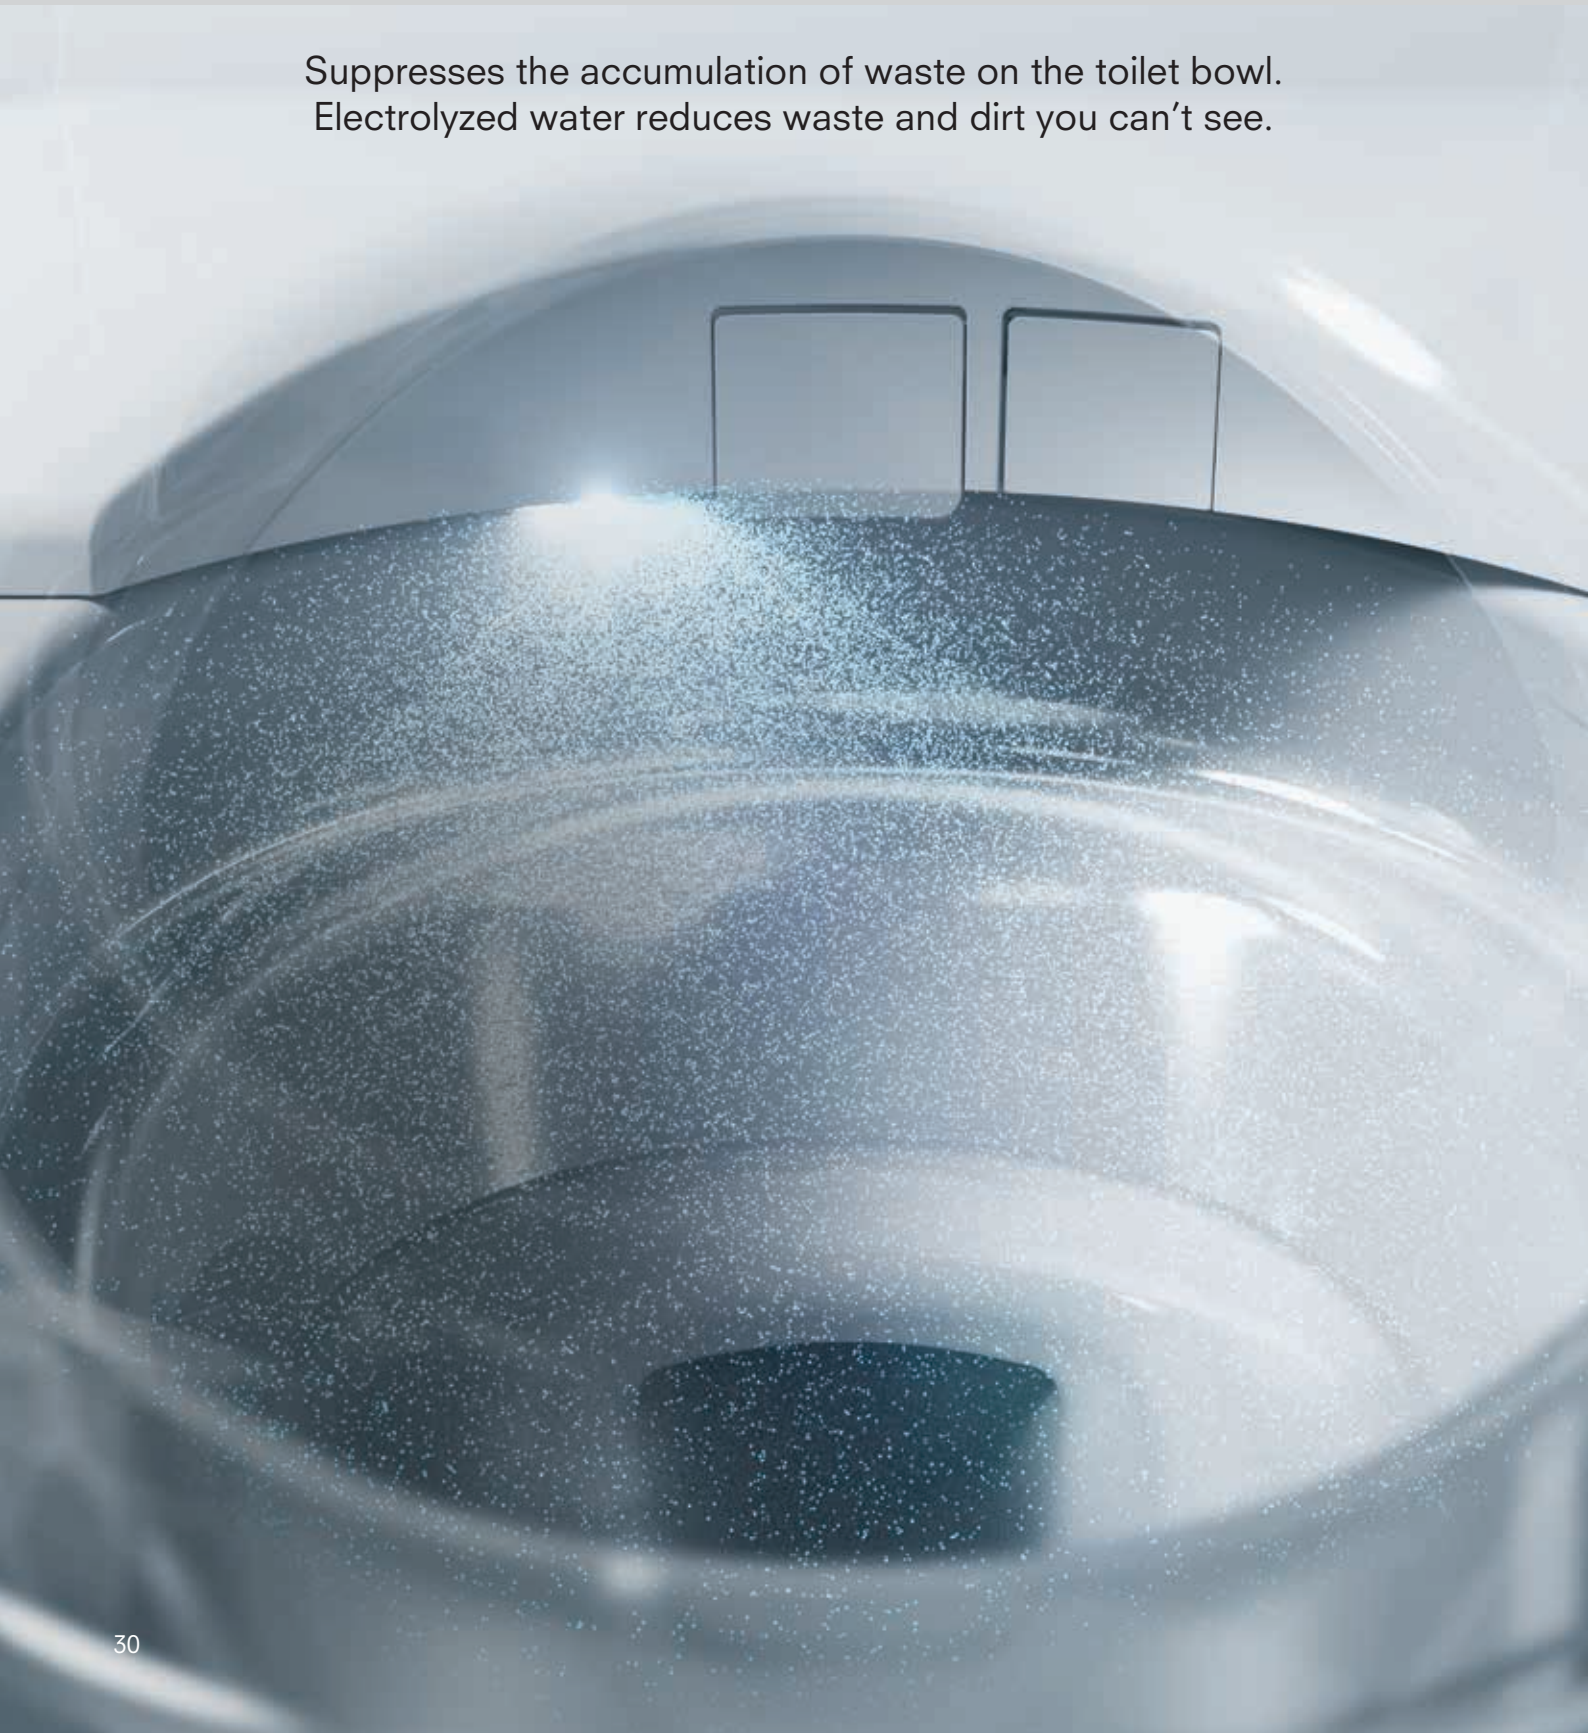

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to make it easy to wash waste away and keep the toilet bowl surface clean.

CLEAN SYNERGY

EWATER+ for BOWL

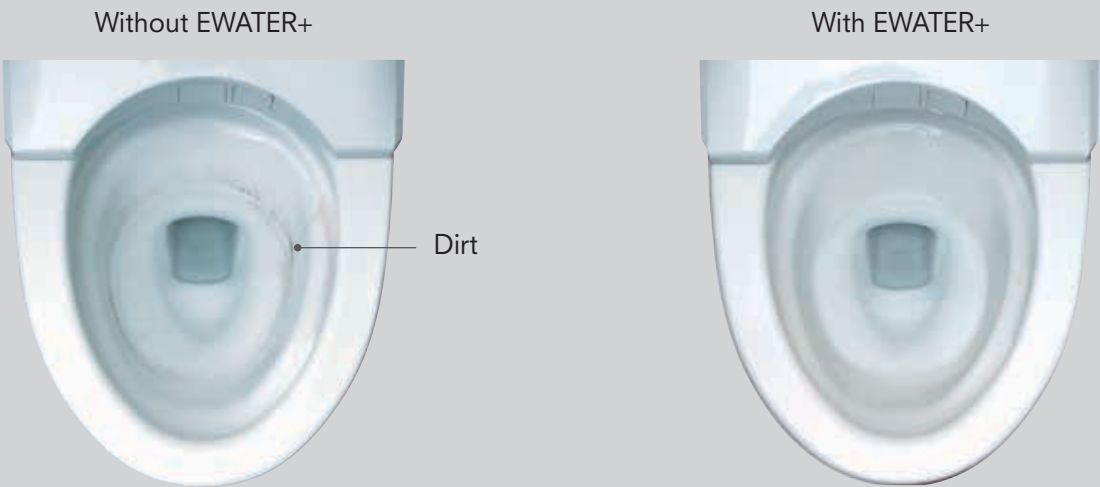

Suppresses the accumulation of waste on the toilet bowl.
Electrolyzed water reduces waste and dirt you can't see.

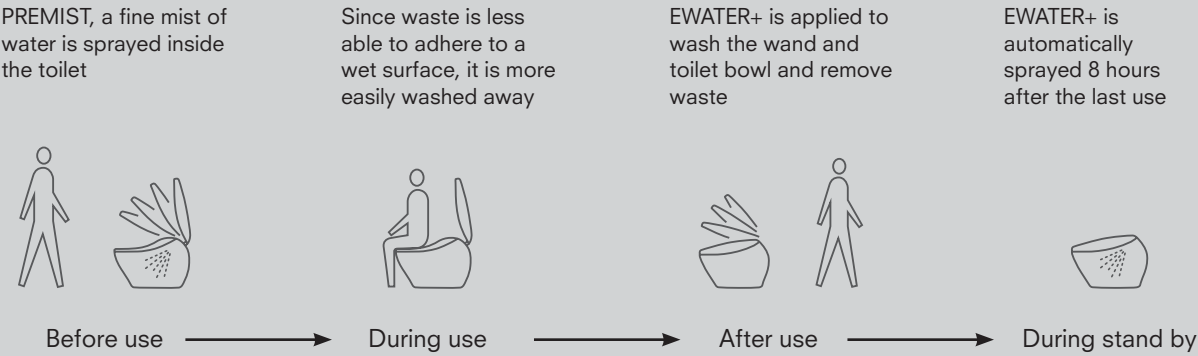

EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO
ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place
to hide and provides everyday peace of mind.

How EWATER+ Cleans

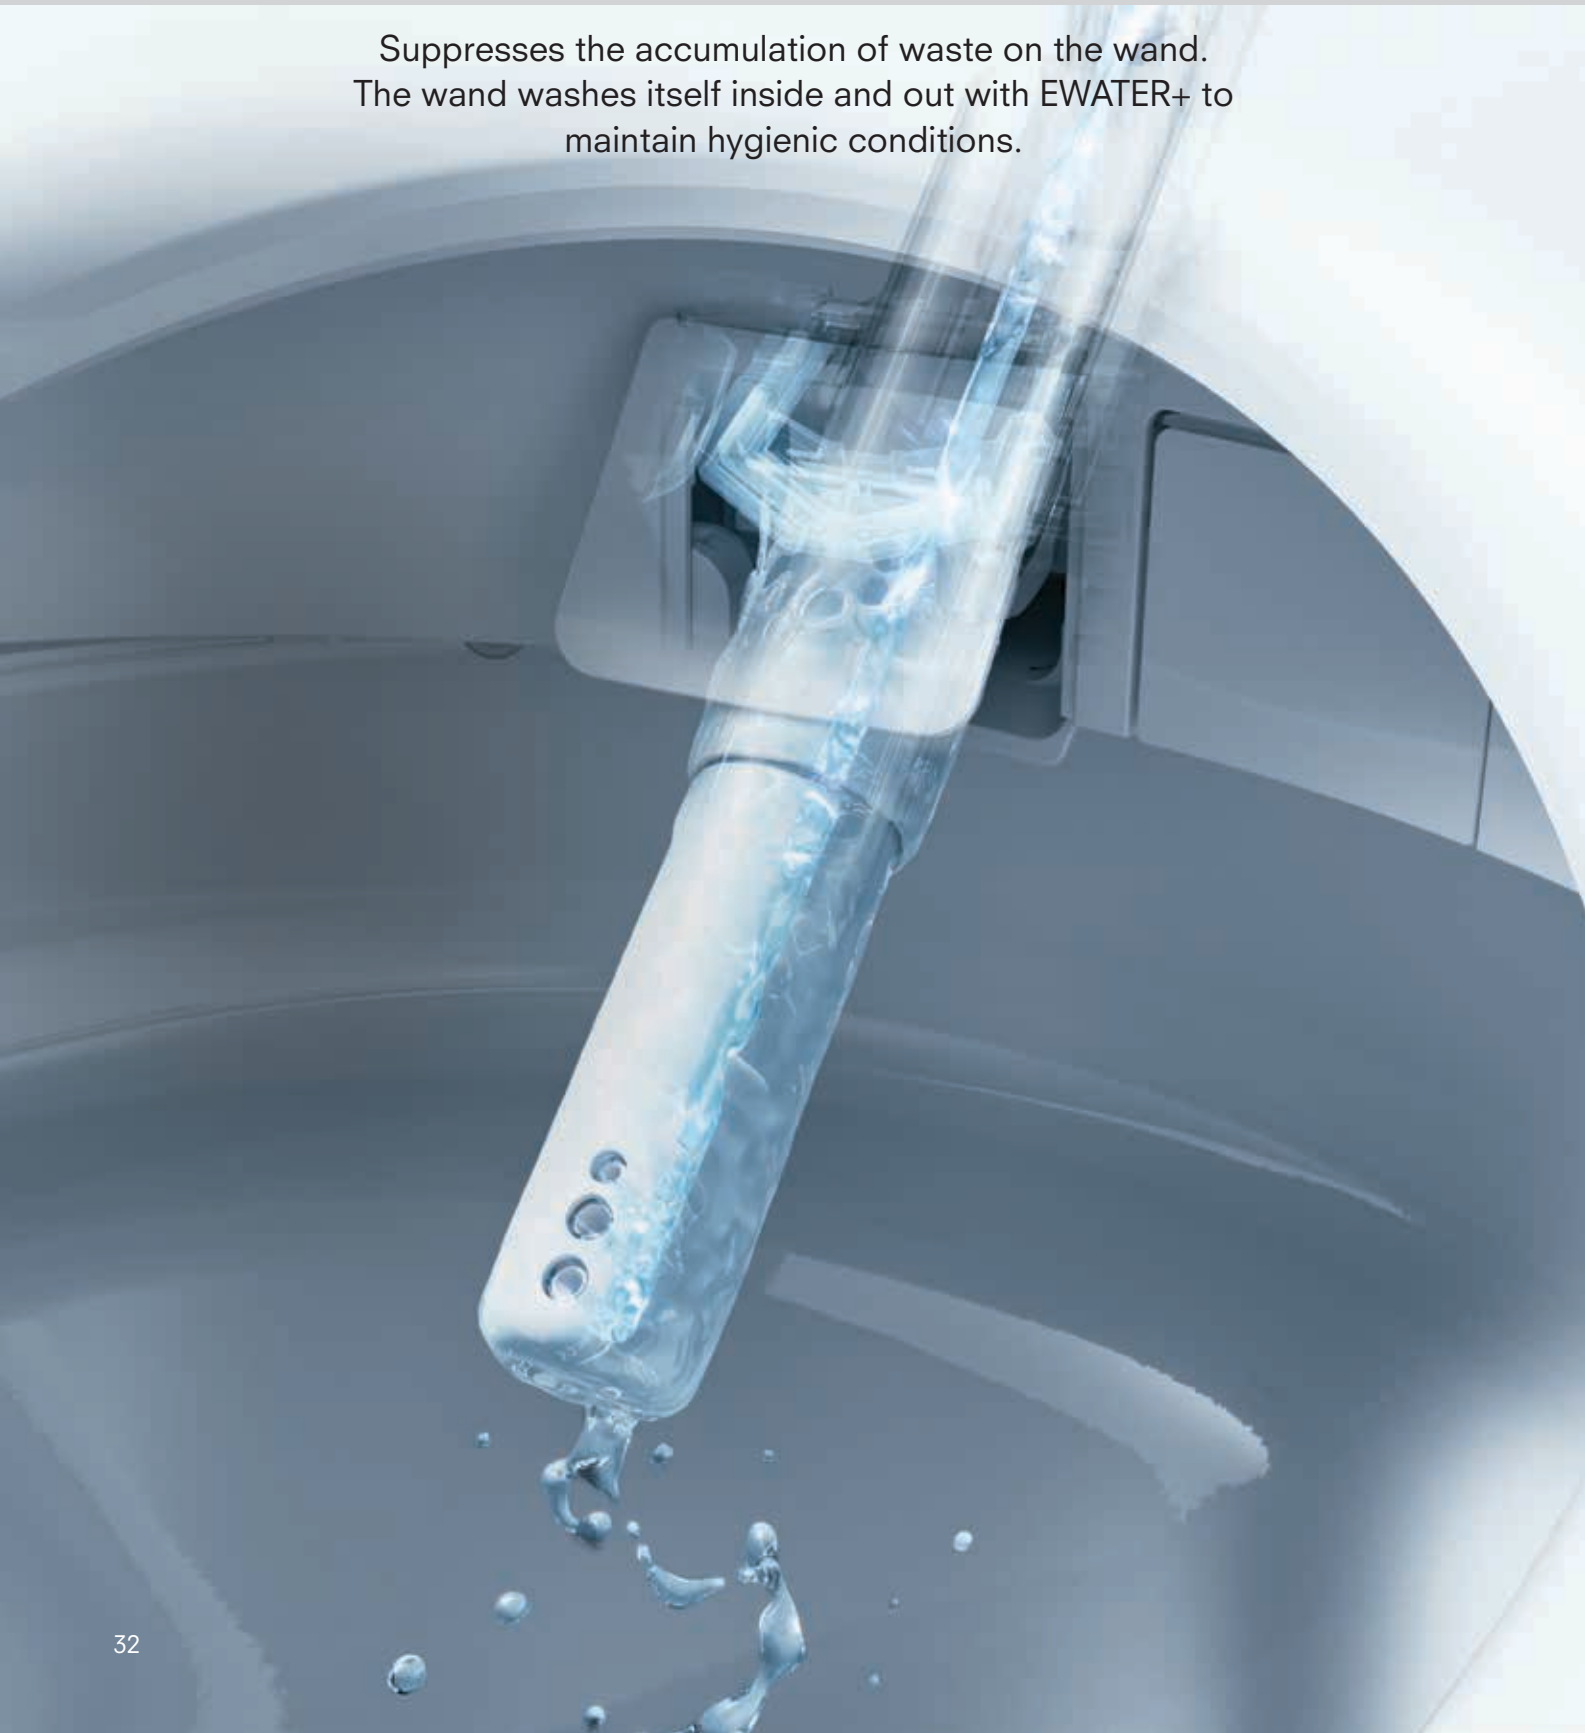

Generated from tap water		Uses no detergents or chemicals		Reverts to normal water with time	
--------------------------	---	---------------------------------	---	-----------------------------------	---

CLEAN SYNERGY

EWATER+ for WAND

Suppresses the accumulation of waste on the wand.
The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

EWATER+

AFTER EACH USE,
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior.
Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Self-Cleaning Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it.

Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

CLEAN SYNERGY

EWATER+ for UNDER SEAT

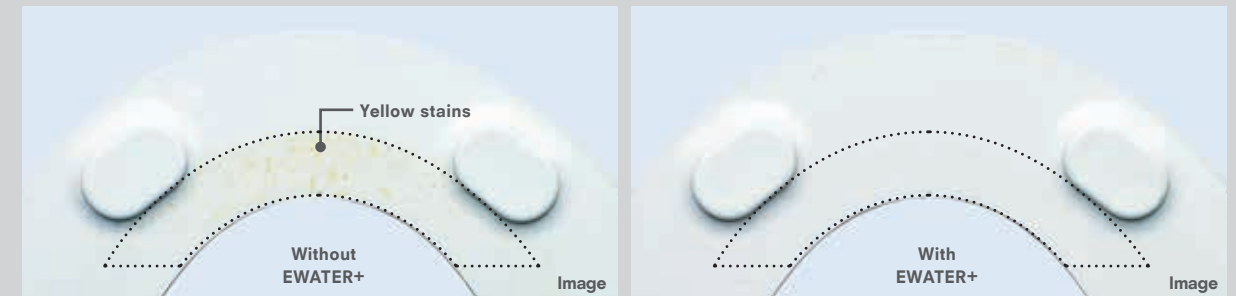

EWATER+ suppresses hard-to-see waste underneath the toilet seat.

EWATER+

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+
Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)
*Results vary according to usage and environmental conditions. All data collected by TOTO. The dotted lines in the figure show the area over which EWATER+ is sprayed.

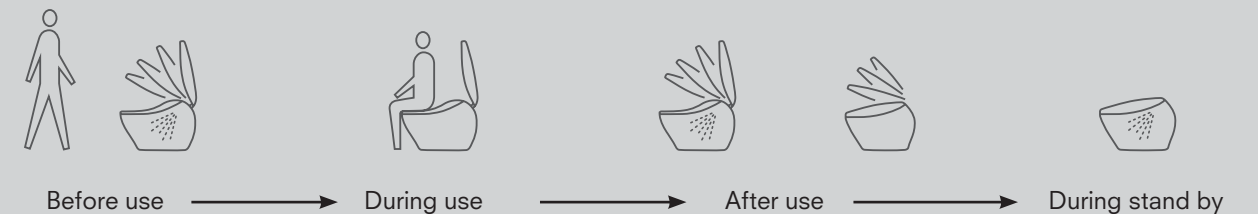

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

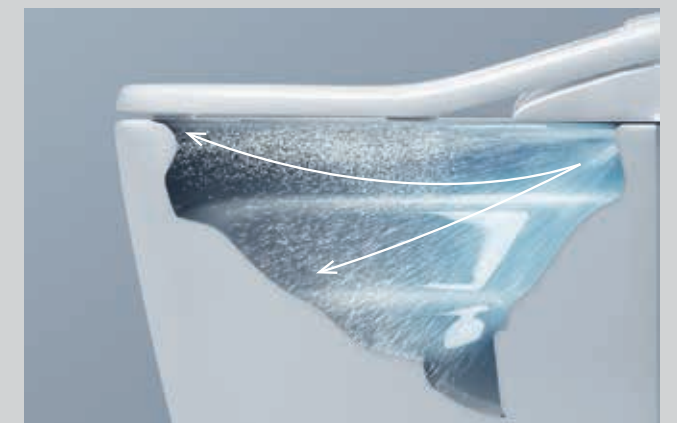

After you step away from the toilet, EWATER+ is sprayed in the toilet bowl and underneath the toilet seat, after which the lid automatically closes

EWATER+ is automatically sprayed 8 hours after the last use

EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

CLEAN SYNERGY

CEFIONTECT

PREMIST

Forces waste to slide down.

Ultra-smooth ceramic leaves nowhere for waste to cling.

Prevents waste from clinging.

A film of water keeps waste from clinging onto the toilet bowl.

CEFIONTECT

IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

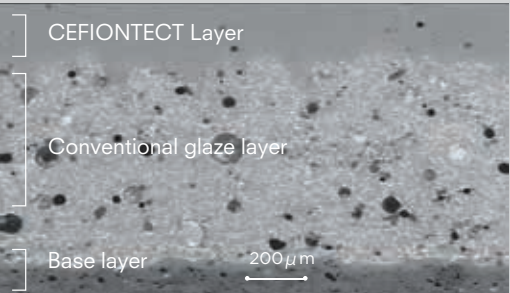

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

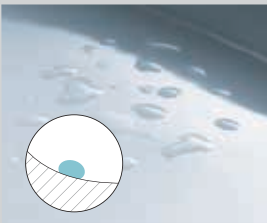

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

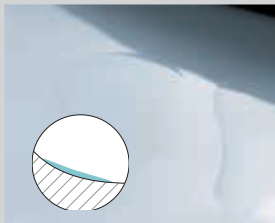

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

Hydrophobic

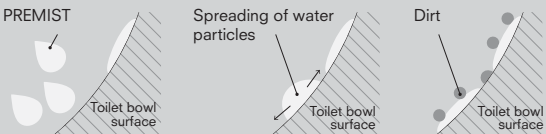

Hydrophilic

PREMIST

To ensure waste washes away easily, a film of water keeps waste from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

CLEAN SYNERGY

**TORNADO
FLUSH**

RIMLESS

Swirls and ejects waste entirely.
360° cleaning power reaches every spot using less water.

TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY
USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees,
washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean. The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

RIMLESS

The RIMLESS design not only leaves no
place for waste to hide, it also makes it
much easier to clean the toilet.

CLEANSING TECHNOLOGY

Supporting your health and wellness
with a new type of clean

AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean.
And it's always pleasantly warm.

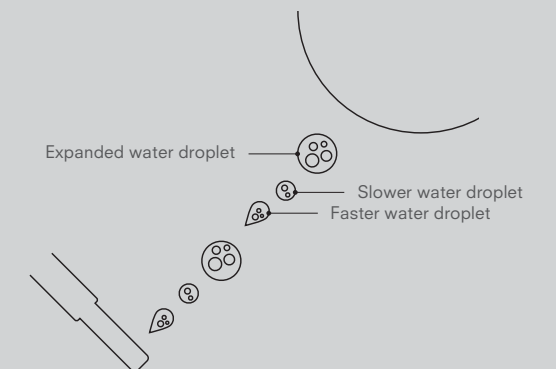

AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed, so you need not worry about running out of warm water.

How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%.

Select the type of cleansing you desire.

NEOREST® NX2, NX1 Remote Control

REAR CLEANSING

Large air-filled water droplets provide a comfortable sensation and complete cleansing with minimal water use.

SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

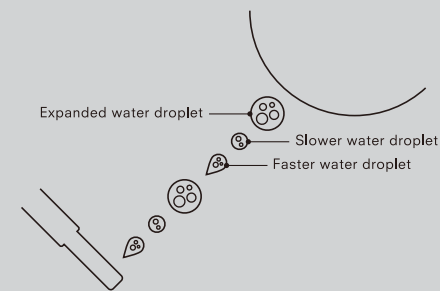

WIDE FRONT CLEANSING

Showers of small water droplets reach a wide area, ensuring a gentle sensation for sensitive skin.

CLEANSING SPRAY PATTERNS

HOW AIR-IN WONDER-WAVE WORK

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air enlarges water droplet by around 30%

Rear Cleansing
Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

Rear Soft Cleansing
Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

Front Cleansing
Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way.

Wide Front Cleansing
Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

Oscillating Cleansing
The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

Pulsating Cleansing
Rhythmically pulsating stream of cleansing warm water.

Wand Position Adjustment
You can easily set the wand position according to your preference.

Wand Pressure Adjustment
Select from five levels of water pressure

COMFORT TECHNOLOGY

For greater performance and hygiene
in the bathroom

AUTO OPEN/ CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

SUSTAINABILITY

Ultra-powerful water conservation.
Flushes waste completely
every time - no matter where
the toilet is located.

HYBRID ECOLOGY SYSTEM

HYBRID ECOLOGY SYSTEM combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency.

Using minimal water, **HYBRID ECOLOGY SYSTEM** is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

CLEAN SYNERGY means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

Sustainable cleaning

WASHLET sprays the non-porous ceramic bowl with **EWATER +**, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, **EWATER** returns to the water cycle as pure H_2O .

WHAT IS EWATER+

EWATER+ is water containing hypochlorous acid that is used for cleaning and other purposes.

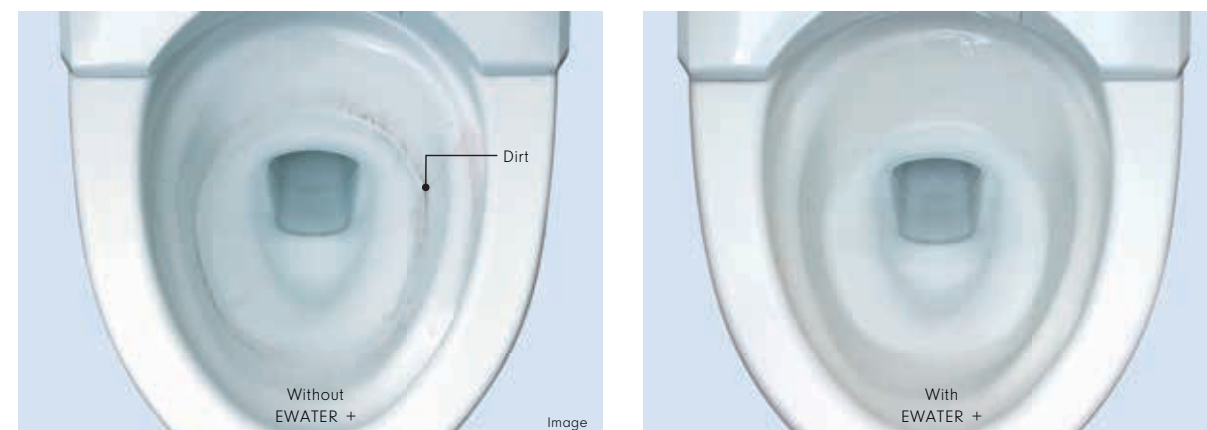

Hypochlorous acid is effective in suppressing the growth of bacteria.

Chloride ions contained in water are electrolyzed to create water that contains hypochlorous acid.

SUPPRESSES the accumulation of Waste on BOWL

EWATER+ washes the wand and toilet bowl where waste tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic stains has no place to hide.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilets that receive no cleaning versus toilets that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. *Results vary according to usage and environmental conditions. All data collected by TOTO.

Generated from tap water

Uses no detergents or chemicals

Reverts to normal water with time

Before use

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

While sitting

HEATED SEAT

The moment you approach the toilet, the seat begins warming to a comfortable temperature.

DEODORIZER

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

When Standing

AUTO FLUSH

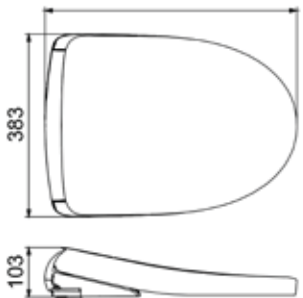

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

ECOWASHER

The ECOWASHER is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes.

**MATTE COLOUR
COLLECTIONS**

LINEARCERAM

CEFIONTECT

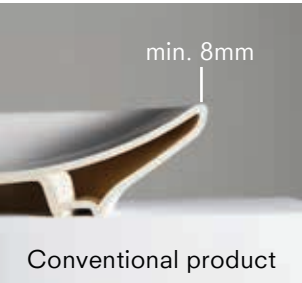

Material used for washbasins that achieves an extremely thin design yet two times as strong as standard fireclay.

LINEARCERAM’s accurate design harmonizes with any space. Sophisticated and inviting to use, LINEARCERAM is a new paradigm in bathroom aesthetics.

TOTO has developed a new material “LINEARCERAM” that is stronger than general fire clay by combining unique ingredients. This gave us more freedom of design and made a highly accurate design possible.

We created a cutting-edge design that is extremely thin, emphasizes its linear contours and smoothness.

Conventional product

LINEARCERAM

CEFIONTECT clean

LINEARCERAM features TOTO’s proprietary technology for preventing the adhesion of dirt and ensuring easy cleaning. CEFIONTECT has superior durability for long term use.

BATHTUB

Give yourself the time to indulge in luxury everyday. Taking a bath is no longer just about cleansing your body but also soaking in extreme comfort and tranquility.

TOTO's wide-range of bathtubs are specially designed to maximise the little time you have for yourself. Unwind in a luxurious sanctuary for relaxation and meditation.

ZERO
DIMENSION

HYDROHANDS

RECLINE
COMFORT

ZERO DIMENSION

Immersed in the meditative moment of relaxation.

THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

THE BRAIN IN A STATE OF TRANQUILITY

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

Research has shown that the ZERO DIMENSION bathing posture reduces activity in the part of the brain that houses the language function. This is the reason ZERO DIMENSION bathing feels calming and relaxing.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the FLOTATION TUB. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit, creating a sanctuary from the physical and mental fatigue that today's world brings.

ADVANCED TECHNOLOGY ENCOURAGES RELAXATION

Exclusive features that make every bathing experience a luxurious occasion.

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

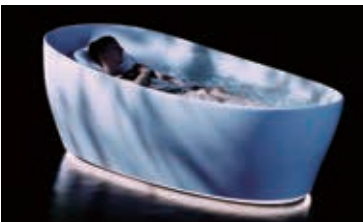

CONTROLLER

The electrostatic controller is operated by the slightest touch.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

LED LIGHTING

In the outer perimeter of the tub's base, LED lighting supplies a dream-like ambience.

AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

RECLINE COMFORT

Nestled in comfort, feel your body and mind release into a state of tranquility.

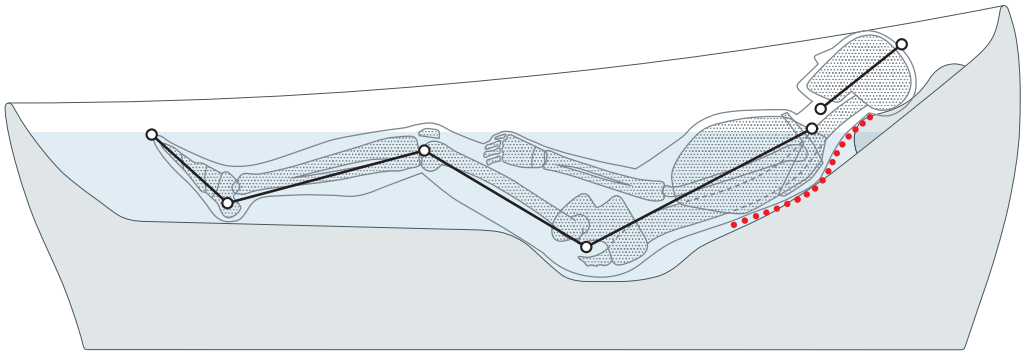

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

Bathing position comparison

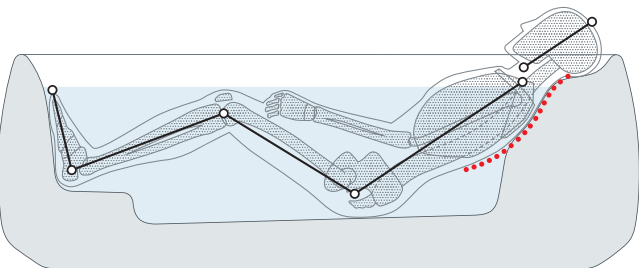

ZERO DIMENSION

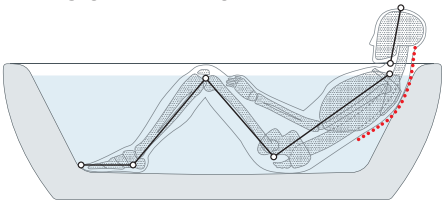

The posture of an astronaut resting in space
ZERO DIMENSION bathing brings freedom
from gravity, releasing stress on joints and
encouraging ultimate relaxation.

RECLINE COMFORT

CONVENTIONAL

The weight of the head releases onto the headrest, the
body receives the sensation of a comforting embrace.
The natural S-curve of the spine is maintained all along
the neck and down the back, encouraging deep release.
This position provides a deep sensation of ease and
tranquility. It is a bathing experience that brings
relaxation beyond expectations.

In a conventional bathtub, the low water
height and a rounded low back make
complete relaxation difficult to attain. The
shoulder and neck area do not receive warmth
from soaking and the bathing position can
feel tight and cramped.

COLOR

You can choose between a high-gloss finish that looks
like ceramics or a matte finish with a subdued texture.

COMFORT GLIDE

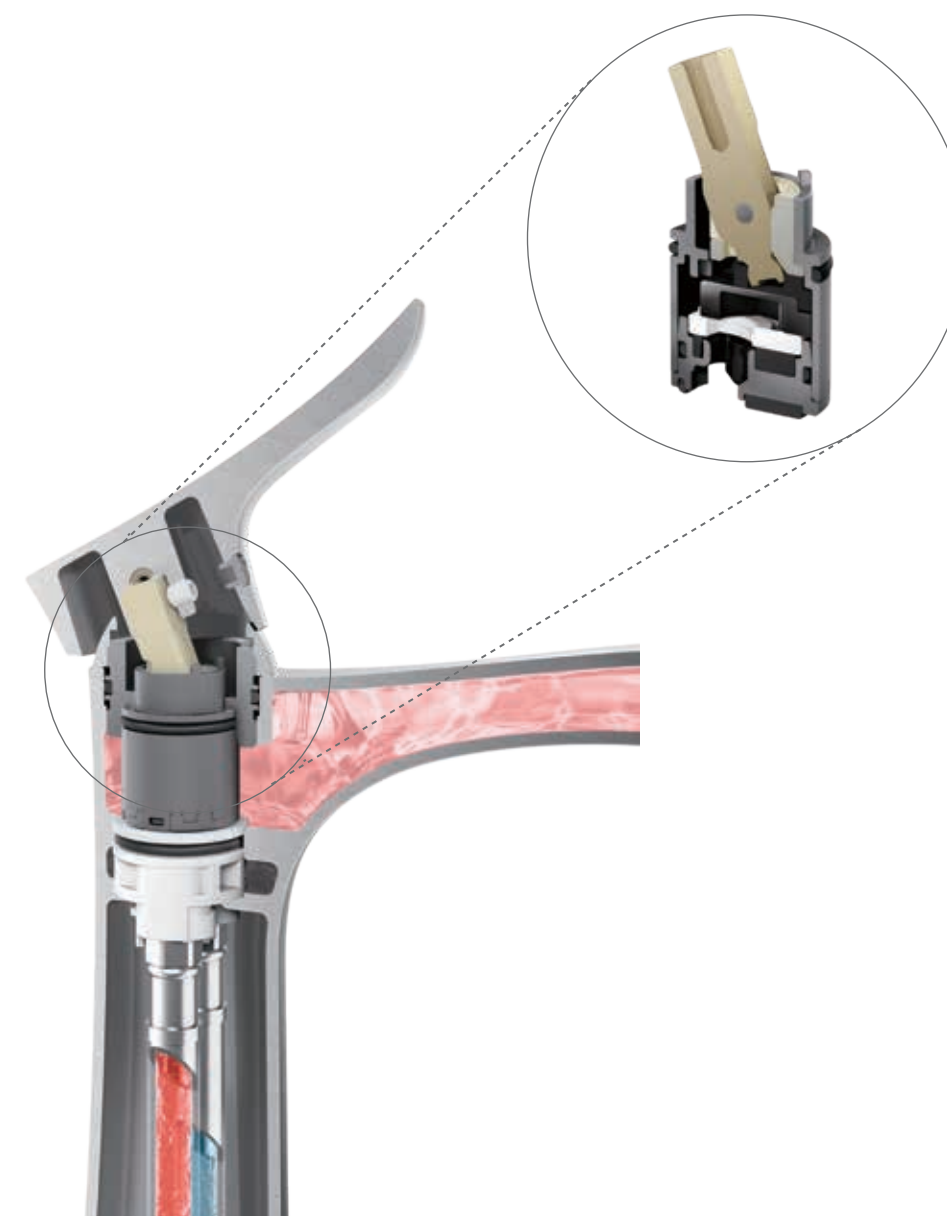

Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on users' touch. Designed from the ground up to provide a fundamental comfort in operation.

Special coating for prolonged comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water.

*Adjustable flow functionality is not available on side-handle models.

reddot award 2019
winner

Lightness and dignity in a natural shape
for a timeless design.

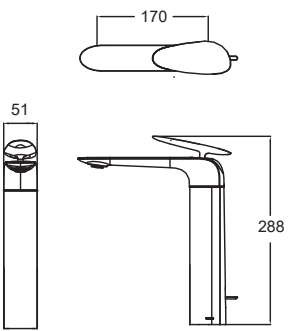

Sharp edges, the beauty of generous
curves, and the contrast of polished
and hairline finishes combine in a
modulated design that achieves
balance of a different order. The
handle, asymmetrically shaped like
a small stone, is beautiful from any
angle and settles in rhythmically.

Concealed Part

An asymmetrical faucet handle and washbasin bowl in beautiful harmony.

With the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the appeal of the design for a fresher everyday in spaces that share its natural motif.

A precise, ultra-thin form delivers a tranquil, keenly framed beauty.

The smooth, flat, mirror-like surface and ultra-thin edge generates a contrast in two dimensions whose overwhelmingly delicate look – made possibly by advanced processing technology – shares a design philosophy with the square-lined, sharp-edged washbasin bowl.

Enhancing flow and gesture,
the design fits the sharp washbasin bowl.

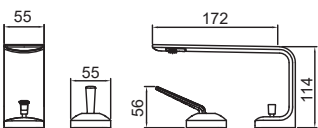

Abundant water flows like a waterfall
from the horizontal spout, while the
handle can be operated gracefully
with a gentle pinch of the fingers.
Beautifying even the flow of water and
human gestures, the design resonates
with the sharp, square washbasin bowl
to create a richer space.

The beauty of traditional craft in
a characteristic sculptural form.

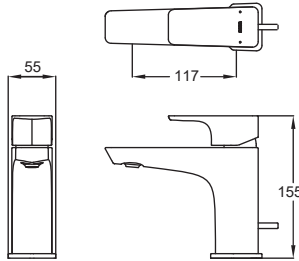

The sharp, taut V-shaped edge that
extends up to the end of the spout
generates multi-sided reflections
revealing a range of expressions. The
chrome finish further accentuates the
distinctive design for a richer, more
luxurious look that helps generate
extraordinary, inspirational spaces.

The breath and symbolism of classical design in a contemporary form.

With the composure of an elegant serif typeface and a base shaped to reconfigure the stability at the heart of traditional architecture, we pay homage to designs that have stood the test of time while transitioning to a modern design that reflects the present day.

Bold parallel arches
and reflective curves in
an assertive design.

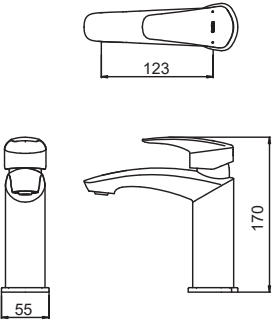

Suggesting the majestic dignity of outstanding architecture, the shape combines—in the arch of its spout and a columnar body—elements seen in traditional shrine gates. Its imposing presence is further accentuated by the highlights that trace its edges.

The stately squareness and beveled edges imbue a space with dignity.

Edges so gently beveled, you'll want to draw your finger along them. The balanced highlights accentuate the shape of the gradually narrowing spout and the sleek silhouette of the whole.

best of the best

Flowing and curvaceous,
the organic form leaves
a graceful impression.

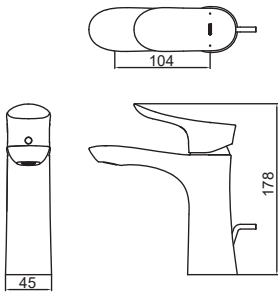

With a spout and handle
that grow and a body defined by
curves, the faucet suggests a plant
bathed in sun-light, reaching higher
and higher as it grows, with a soft,
sculptural beauty that sustains both
space and user.

The weight of a metal ingot
cut at right angles tightens
up space.

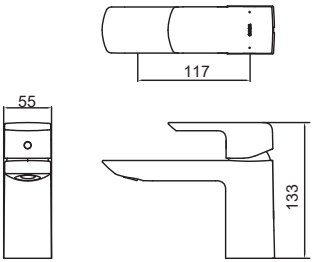

The design contrasts found in this marriage
between sharply honed edges and the
gentle curves at the top of the spout and
handle generates a regal air while further
bolstering its imposing sculptural beauty.

WARM SPA

Embraces you in warmth
Helps you relax
Leaves you ready for rest

WARM SPA

COVENTIONAL
SHOWER

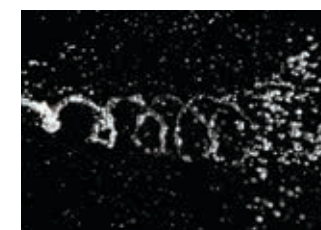

Controls the waters flow
Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower

Let no heat escape
Smooth water release means less heat loss. The water cloaks your body, quickly warming it.

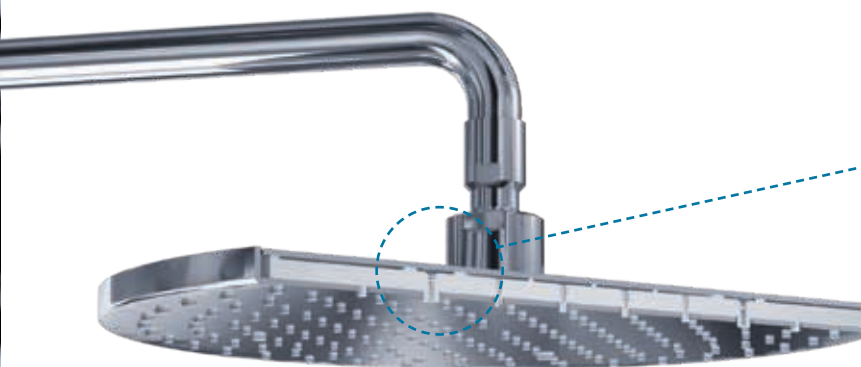

GYROSTREAM

A relaxing vortex of water that cleanses and massages

Refreshing

Over Head Shower

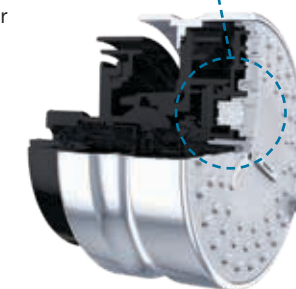

COMFORT WAVE

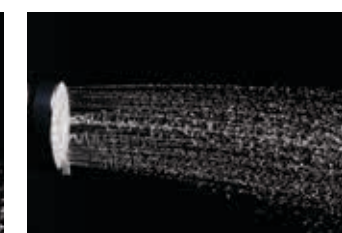

Large droplets of water
Richly dense
Pleasing to the scalp
Luxurious sense of comfort

Hand Shower
(G selection)

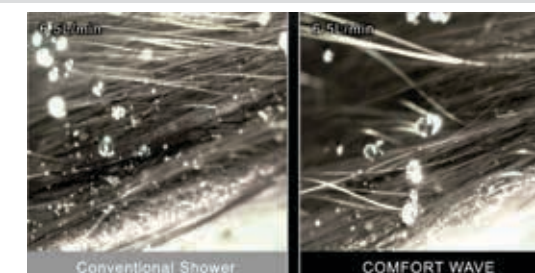

Body Shower
(L selection)

THAT QUALITY: ONLY TOTO

The image illustrates water prevention. While the fine drops of the conventional shower bounce off the hair, the larger drops of the COMFORT WAVE reach all the way to the scalp.

Refreshing

NEW

MIST SPA

Let the luxurious microbubbles wrap their veil of mist around you, rinsing away everything but your true self.

1.3 times the rinsing power of COMFORT WAVE

Testing conditions

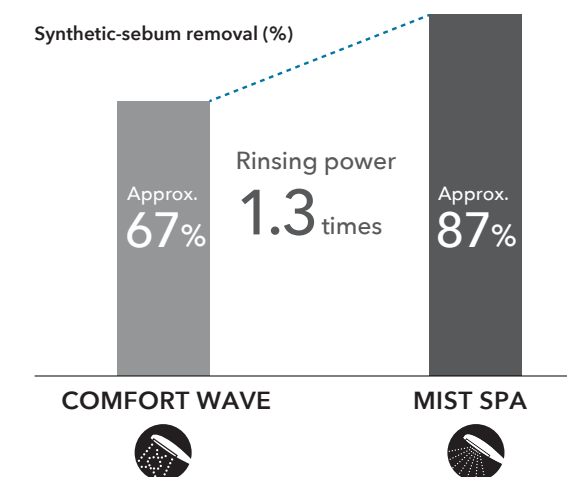

MIST SPA flow rate: 3.5 L/min (0.92 GPM)

COMFORT WAVE flow rate: 6.5 L/min (1.72 GPM)

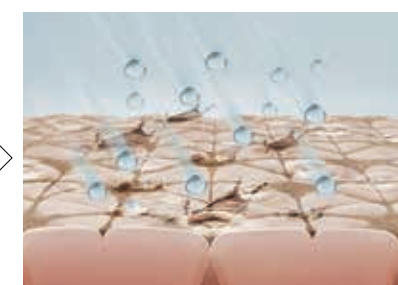

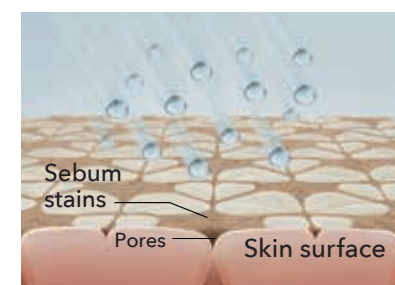

Flow duration: 15 sec. Flow temperature: 42±1°C (98° - 102° F)

Note: One microliter synthetic sebum was applied to a human subject's arm and rinsed off under the testing conditions specified above. The percentage of synthetic sebum removed was then measured. Testing performed by TOTO.

Note: Results may vary based on usage conditions and individual differences.

A mist of ultrafine bubbles gently cleanses the skin

The mist is infused with ultrafine bubbles and is gentle on the skin

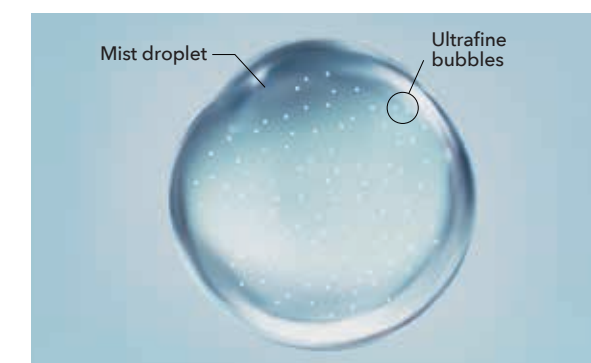

What are ultrafine bubbles (UFB)?

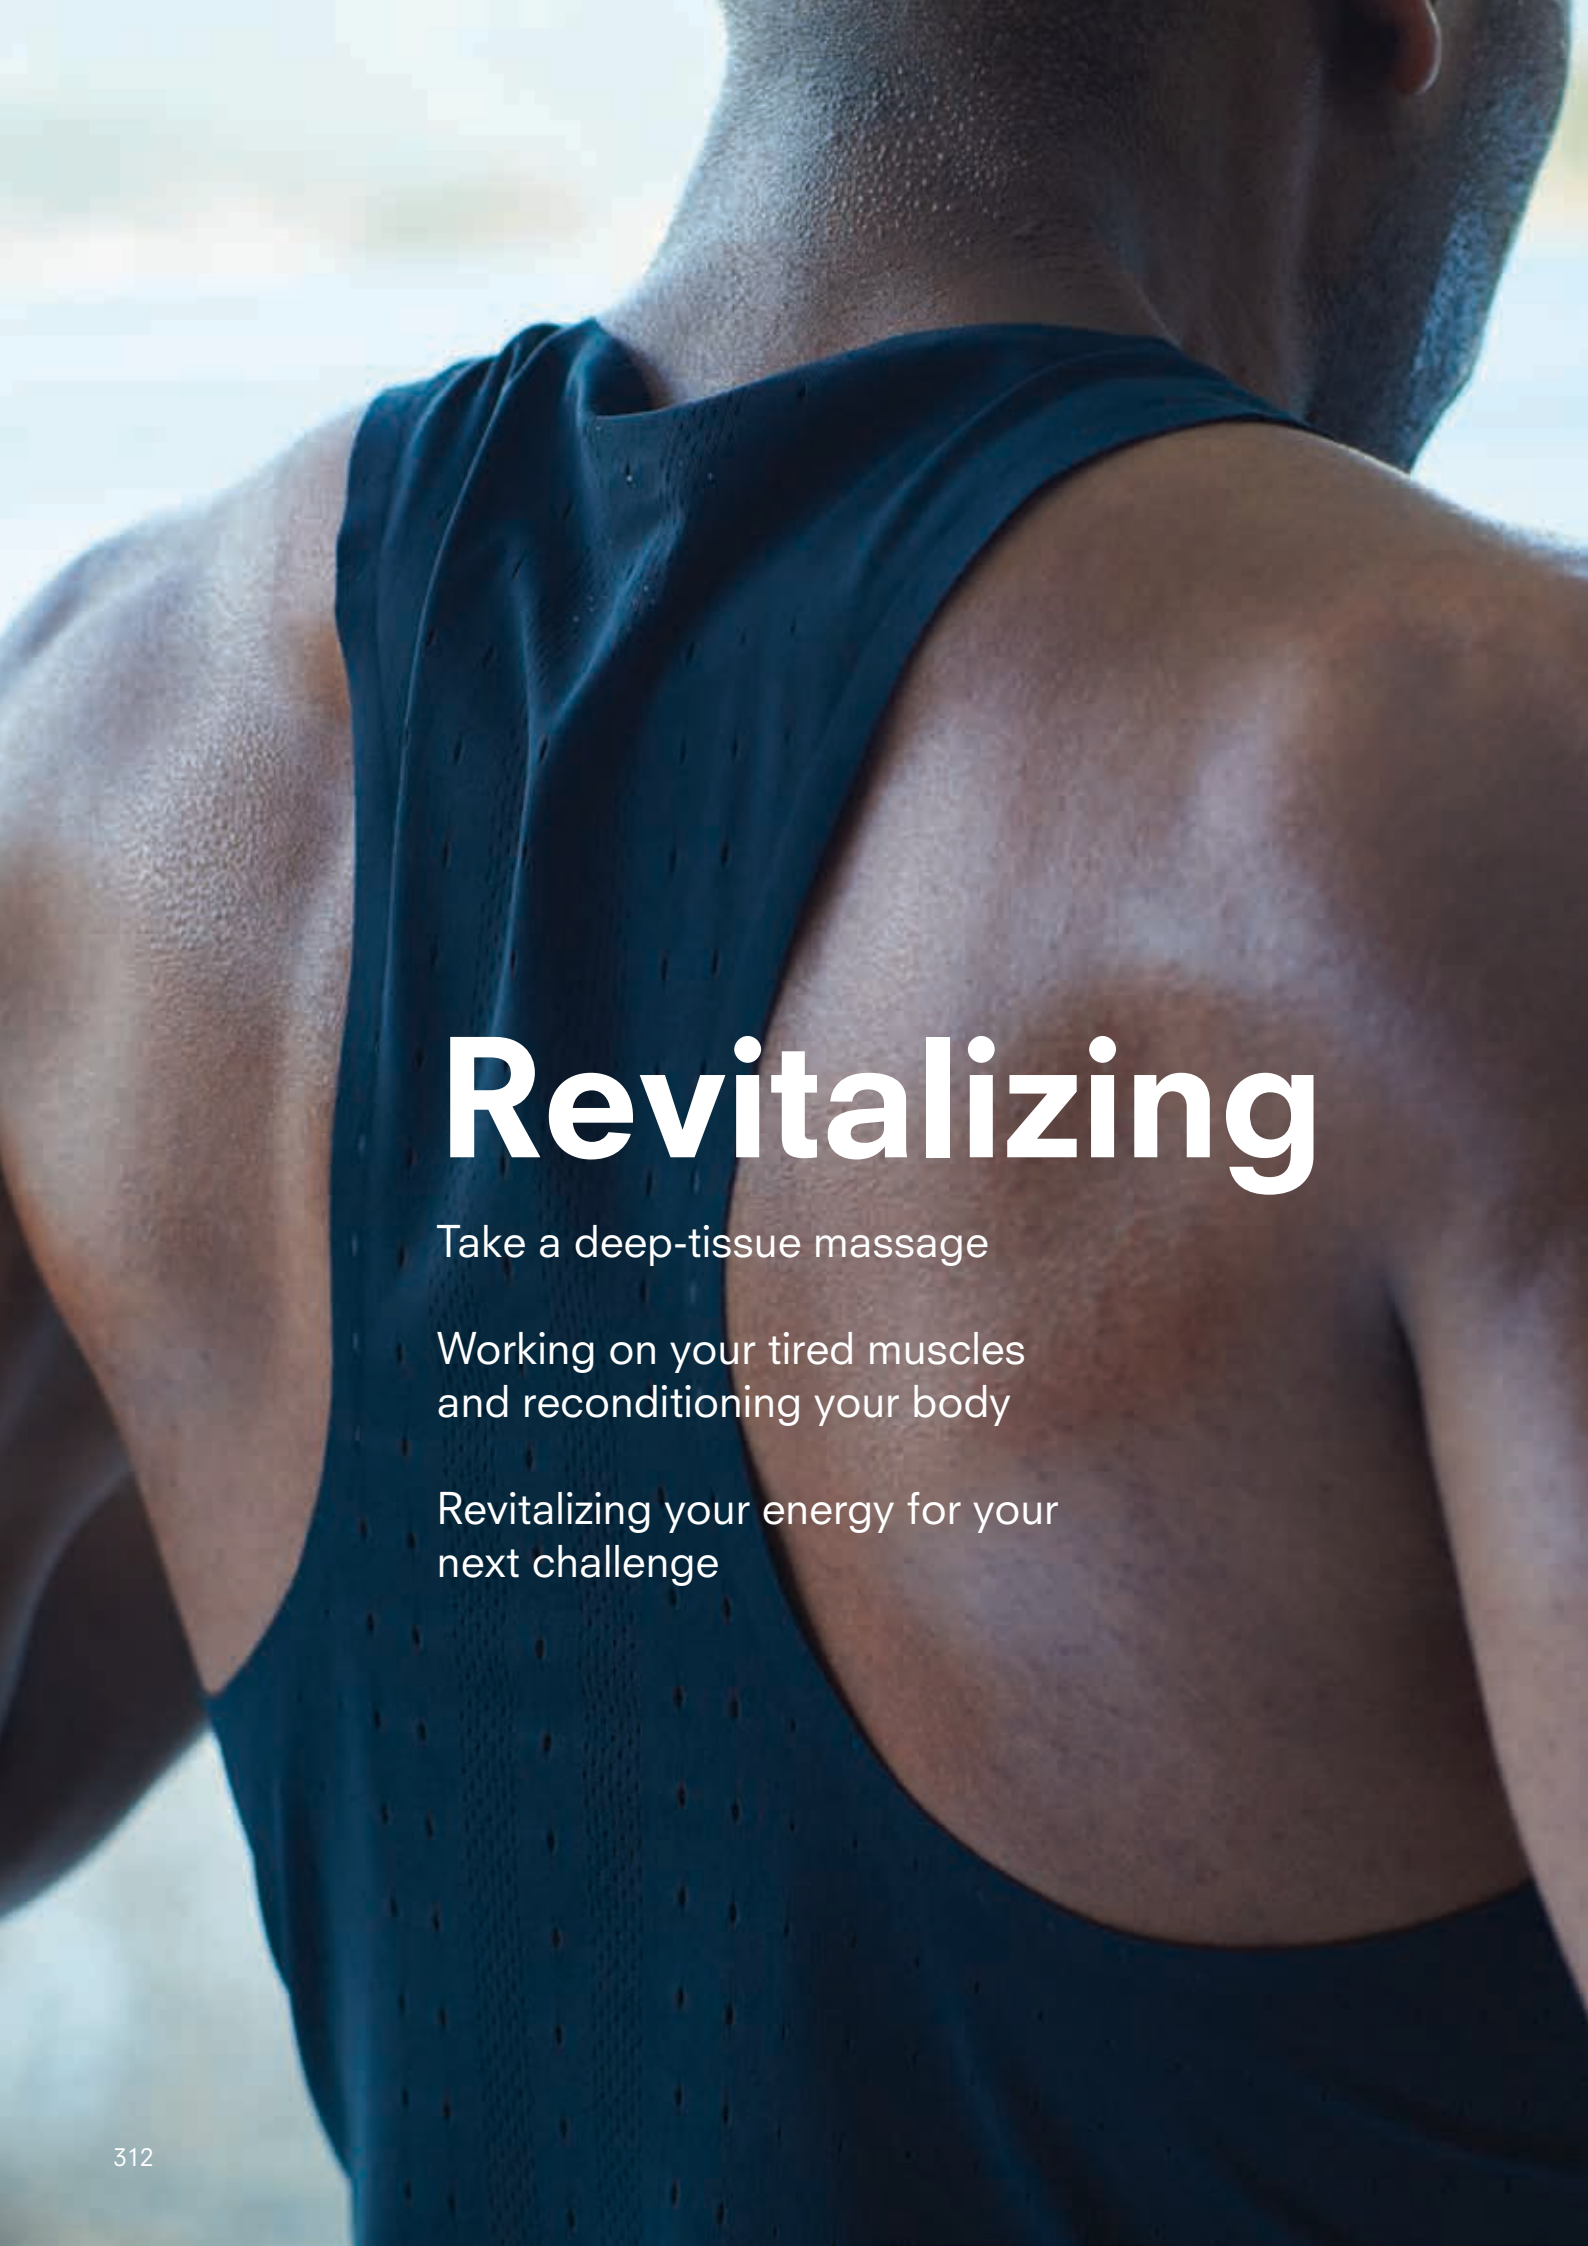

Air bubbles smaller than 1 micrometer in size.

Size and amount of MIST SPA's UFB

UFB diameter: approx. 0.11 micrometer

UFB amount: average of approx. 18.8 million/ml

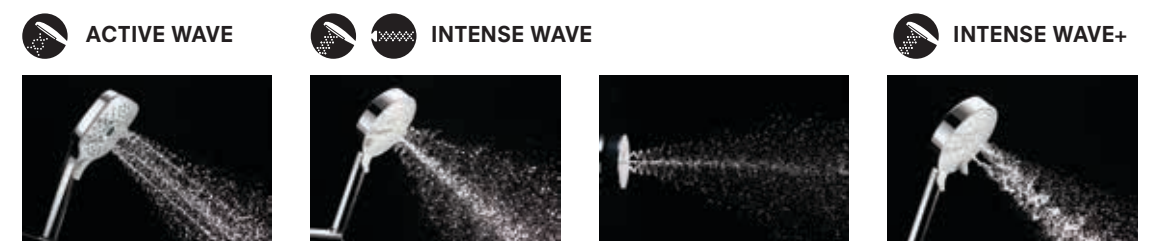

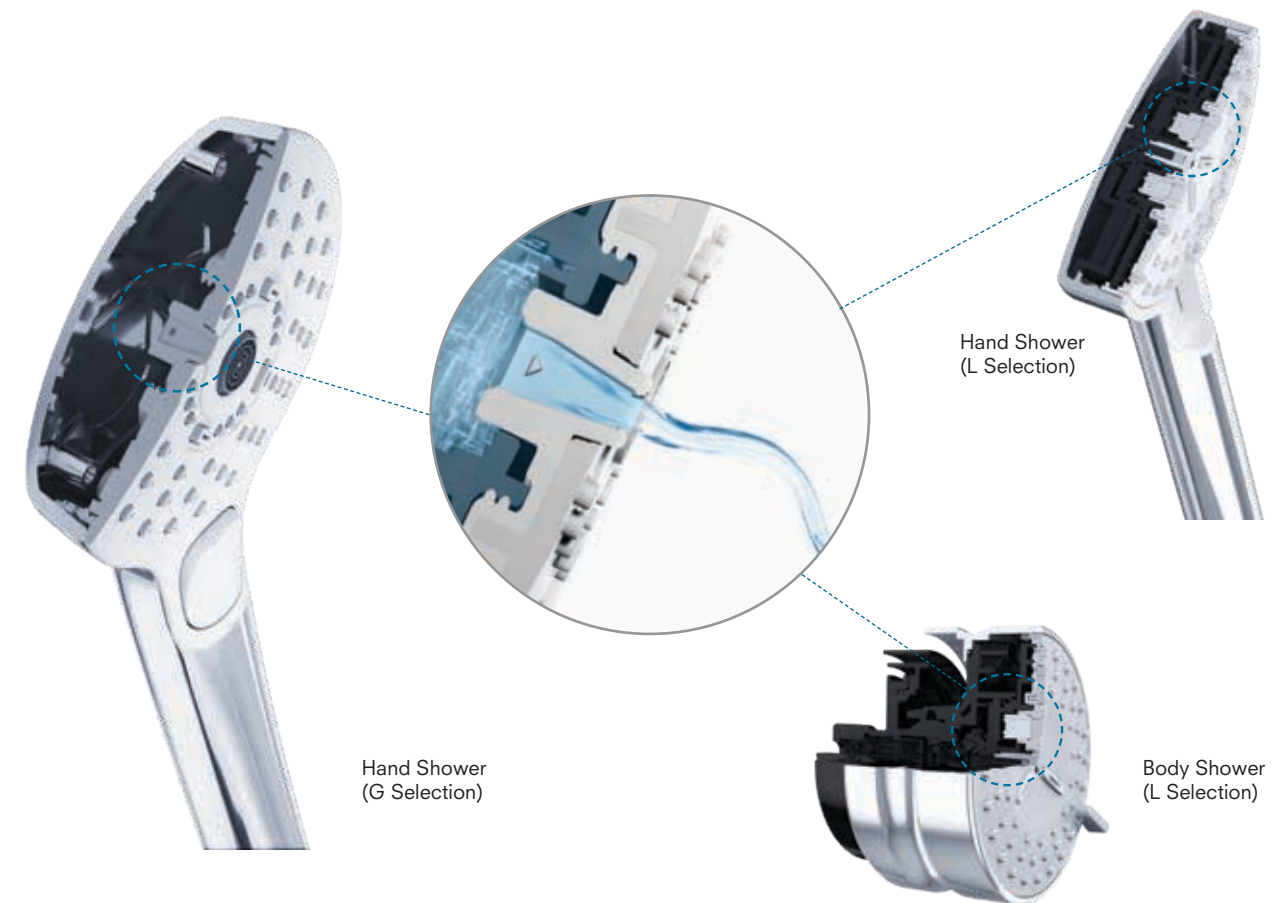

Revitalizing

Take a deep-tissue massage

Working on your tired muscles
and reconditioning your body

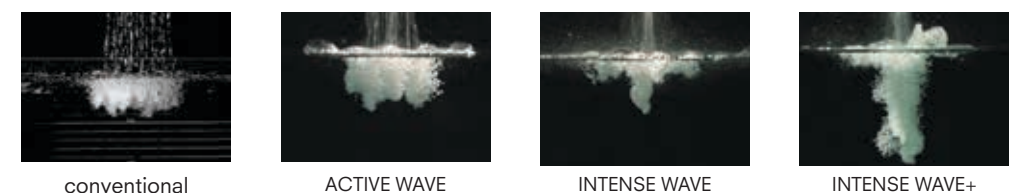

Revitalizing your energy for your
next challenge

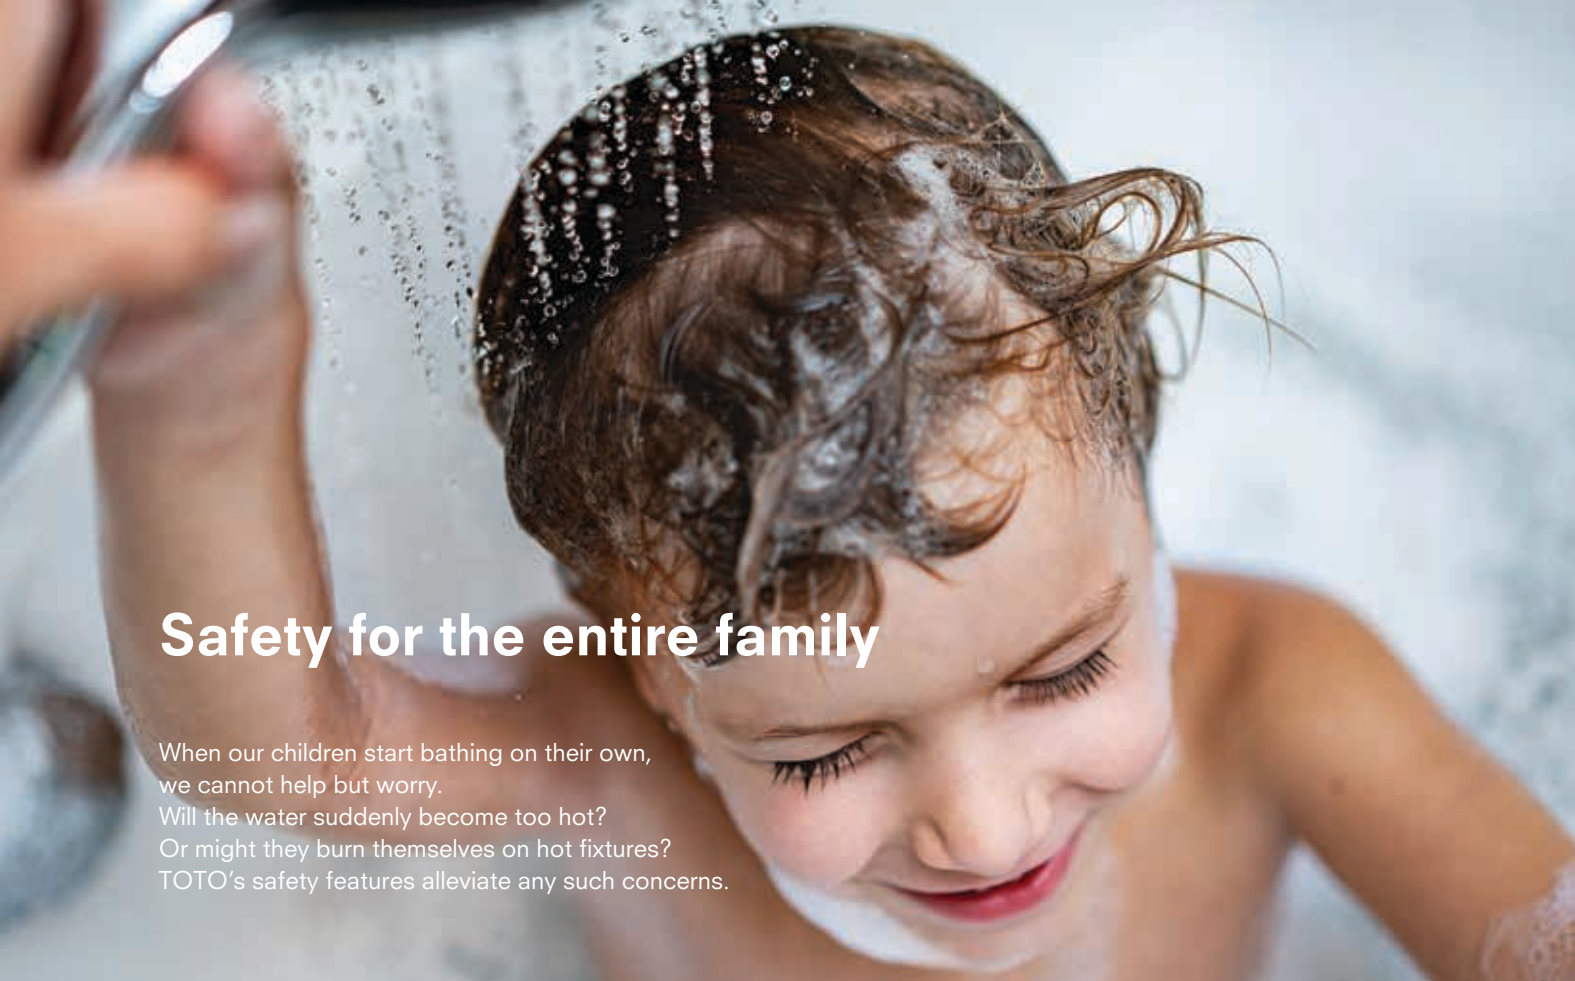

Stimulating to body and mind.
Awakening to the senses.

THAT QUALITY : ONLY TOTO

The image illustrates the comparison of the force of water.
We examined the power of water flow against a transparent pool.

Safety for the entire family

When our children start bathing on their own, we cannot help but worry. Will the water suddenly become too hot? Or might they burn themselves on hot fixtures? TOTO's safety features alleviate any such concerns.

SAFETY THERMO Products

Shower Column

TBW08407A
TBW08408A
470 mm x 290 mm

Exposed Thermostat

TBV01402BA

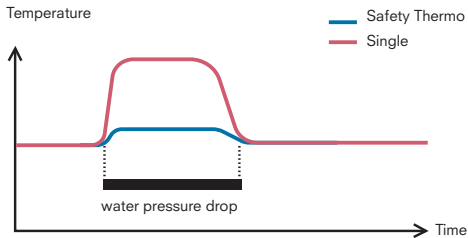

TBV01402BA
With Spout

Prevents rapid rises in temperature for a safer bath time.

A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

By comparison with the SINGLE product, SAFETY THERMO produces a smaller range of temperature fluctuations during bathing, even when the water pressure drops due to a toilet flushing.

Prevents getting too hot and is beautifully shaped for a more pleasant daily bath time.

By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

Easy installation in any bathroom

One of the most compact, miniaturized units in the industry supports the advanced features of this shower.

This allows easy bathroom upgrades without overburdening current bathroom structures.

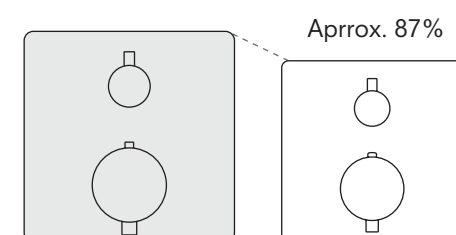

MINI UNIT

Ø112 mm

mass
710g

Industry-leading miniaturization.
beauty in balance.

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours.

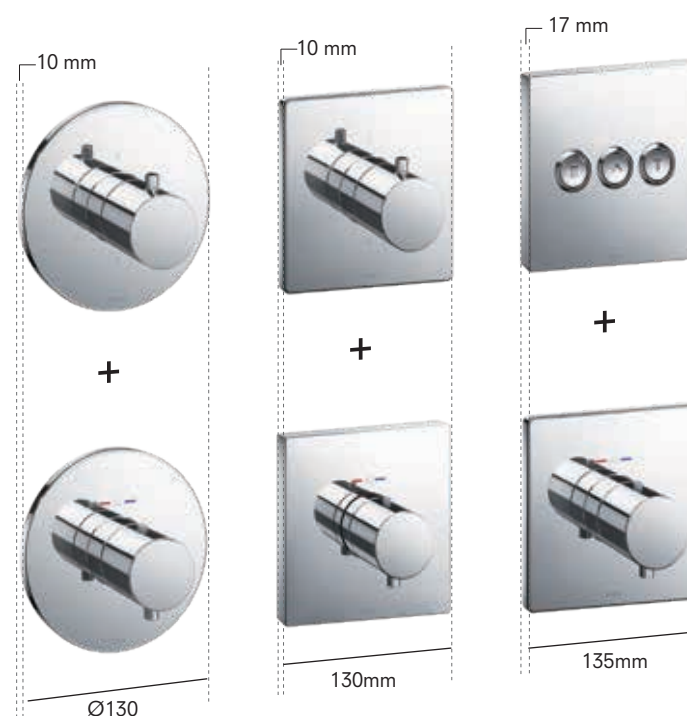

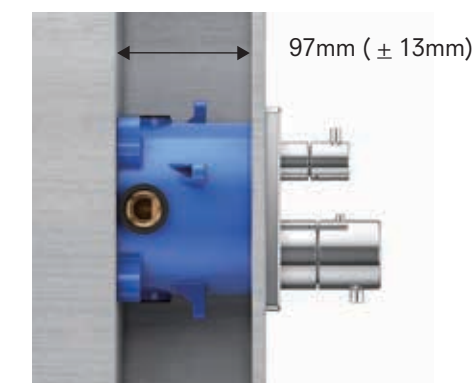

**A compact unit offering
freedom of choice for
more beautiful bathrooms.**

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as round or square fixtures.

Easier to install.
Less load on the frame.

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be 97mm, and the system is able to absorb installation errors of $\pm 13\text{mm}$.

Meticulous attention to design and function for an even richer shower.

Stainless steel panels in a rich array of colours and finishes combine with artificial marble shelf-tops. The fine materiality resonates richly in the shower room, raising it to a higher level. Equipped with a rack that enables unobtrusive storage and an overhead shower that envelops the entire body for a rich shower time.

A perfect showering experience with just one touch.

Choose your shower experience with a simple switch.

For the hand shower we installed a switch right at your fingertip, and for the over head shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA/COMFORT WAVE/ACTIVE WAVE, and for the over head shower between WARM SPA and COMFORT WAVE.

Feel free to enjoy the perfect shower for your mood.

Flow duration: 10 sec.

Flow temperature: 42±1°C (98° - 102° F) N=10

Note: One microliter of synthetic dirt, consisting of a blend of synthetic sebum and carbon black, was applied to a human subject's forehead and rinsed off under the conditions specified above. Subsequently, the percentage of synthetic sebum removed was measured. Testing conducted by TOTO.

Note: "With WARM SPA" refers to showering with WARM SPA (8.3 L/min (2.19 GPM)) for 10 minutes.

Note: Results may vary depending based on usage conditions and individual differences.

**Intuitive operations make it easy
to get the showering experience you want**

The handheld shower is equipped with a lever that is easily operated with your thumb while you hold it. Moving this lever left or right changes the water discharge mode. The body shower provides two water discharge modes. It has a form that allows a comfortable grip, with water delivery switched by rotating the main body left or right. Being able to freely switch between water discharge modes provides a pleasant bath time.

CLEANLINESS

Touchless Technology

Protect your hands from
infectious diseases.

Touchless

Bacteria and viruses may be present on restroom fixtures used by large number of people. Touching the fixtures can transfer the bacteria or viruses to your hands. Our touchless faucets let you easily wash your hands without any need to touch the fixture.

From the time you enter a restroom until you leave, TOTO's touchless products perform every action necessary without direct physical contact.

With many people using the restrooms in train stations, shopping centers, schools, offices and other facilities, it is of utmost importance that public restrooms are sanitary. Plumbing fixtures should have functions that can reduce the spread of coronaviruses, influenza, noroviruses, and other infectious diseases which can have a serious impact on society. TOTO restroom fixtures are equipped with touchless functions that enable people to use the toilets, then wash and dry their hands without having to come into contact with the fixtures themselves. In addition to ensuring that restrooms can be used sanitarly and comfortably, the risk of spreading infectious diseases is greatly reduced. TOTO goes beyond merely 'sanitary' to achieve an extraordinarily high level of hygiene for restroom fixtures.

Every action is performed hands-free.

Automatic flushing toilet

Touchless soap
dispenser

Touchless faucet

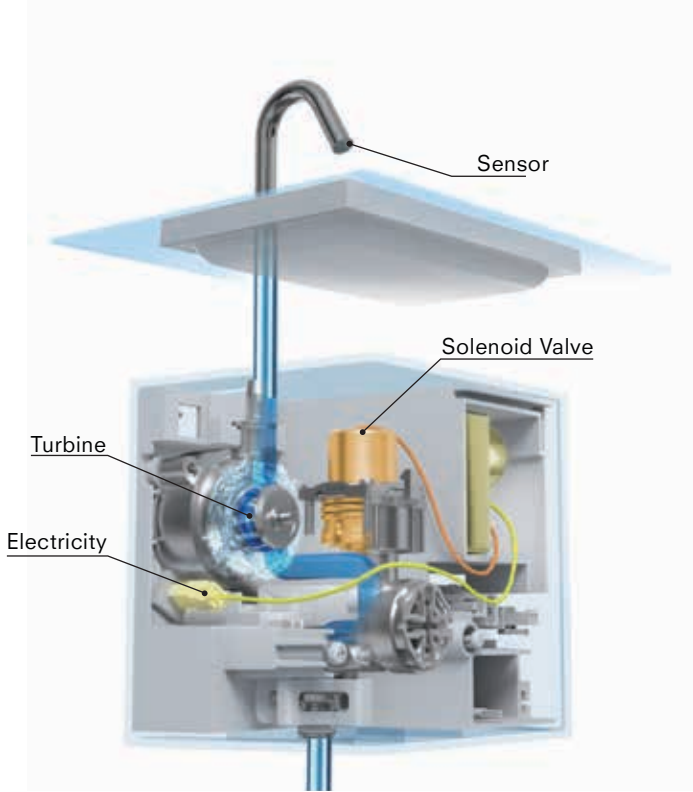

Automatic hand dryer

EARTH-FRIENDLY

Restrooms in
harmony with nature.

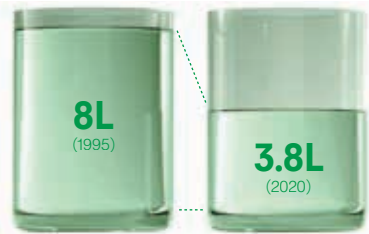

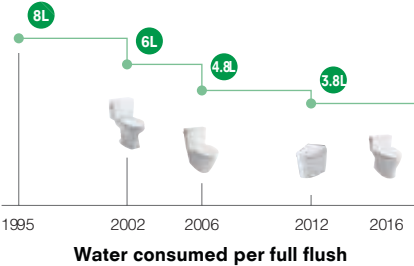

This ECOPOWER touchless faucet uses the flowing water to generate the electricity it needs to operate. There is no need for electrical wiring, making installation and renovation easier.

Features for enhanced
water-saving and energy-saving
without sacrificing comfort or convenience.

Reducing CO₂ emissions has become an issue of global importance, but how can public restrooms be made more earth-friendly? The answer is to minimize the amounts of water and electricity used. As a leading manufacturer of plumbing fixtures, TOTO has been working to reduce water and electricity consumption by our fixtures for many years. Today, TOTO’s water-saving toilets use just 3.8 liters of water per flush, the world’s highest standard of water-saving performance and about half the amount of water used by toilets in 1995. TOTO continues to develop fixtures that conserve water and electricity while maintaining comfort and convenience. One example is ECOPOWER touchless faucets, which use the flow water to generate electricity and ECO CAP, which mixes air with water so users can thoroughly wash their hands while using less water.

Steadily reducing toilet water consumption

Reduced from 8 to 3.8 liters

ECO CAP

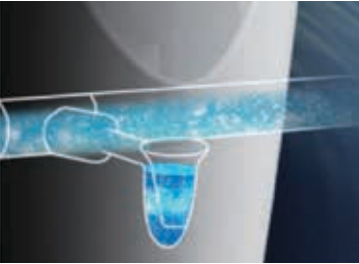

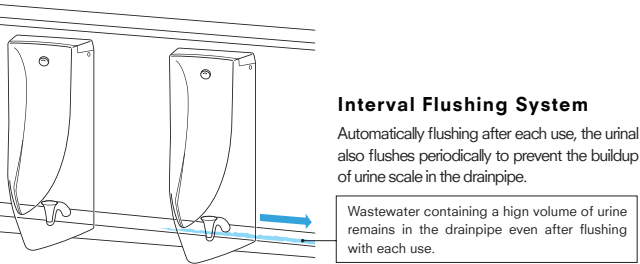

SERVICEABILITY

Making servicing easier while enhancing user satisfaction.

Clean and sanitary even in places that can't be seen. Public restrooms that are easier to clean and service.

It is important to maintain a high level of comfort and convenience when considering ways to reduce the amount of work needed to clean and service a restroom. TOTO has developed a variety of innovations and technologies for keeping restrooms clean and sanitary and for suppressing the accumulation of waste, not only in visible areas but also in places hidden from sight such as the inside of pipes. Urinals are periodically flushed automatically when not in use, such as at night to keep drainpipes clean. Though innovations such as a compact urinal trap that efficiently replaces the water after use, and EWATER+ for preventing stains and odors, restrooms are kept sanitary while effectively conserving water.

EWATER+

ZN series

Bringing elegance to handwashing
Soft and calming to the touch, graceful water
streams gently caress your hands.

GM series

Graceful arch design echoing
traditional architecture.

TLE24 series

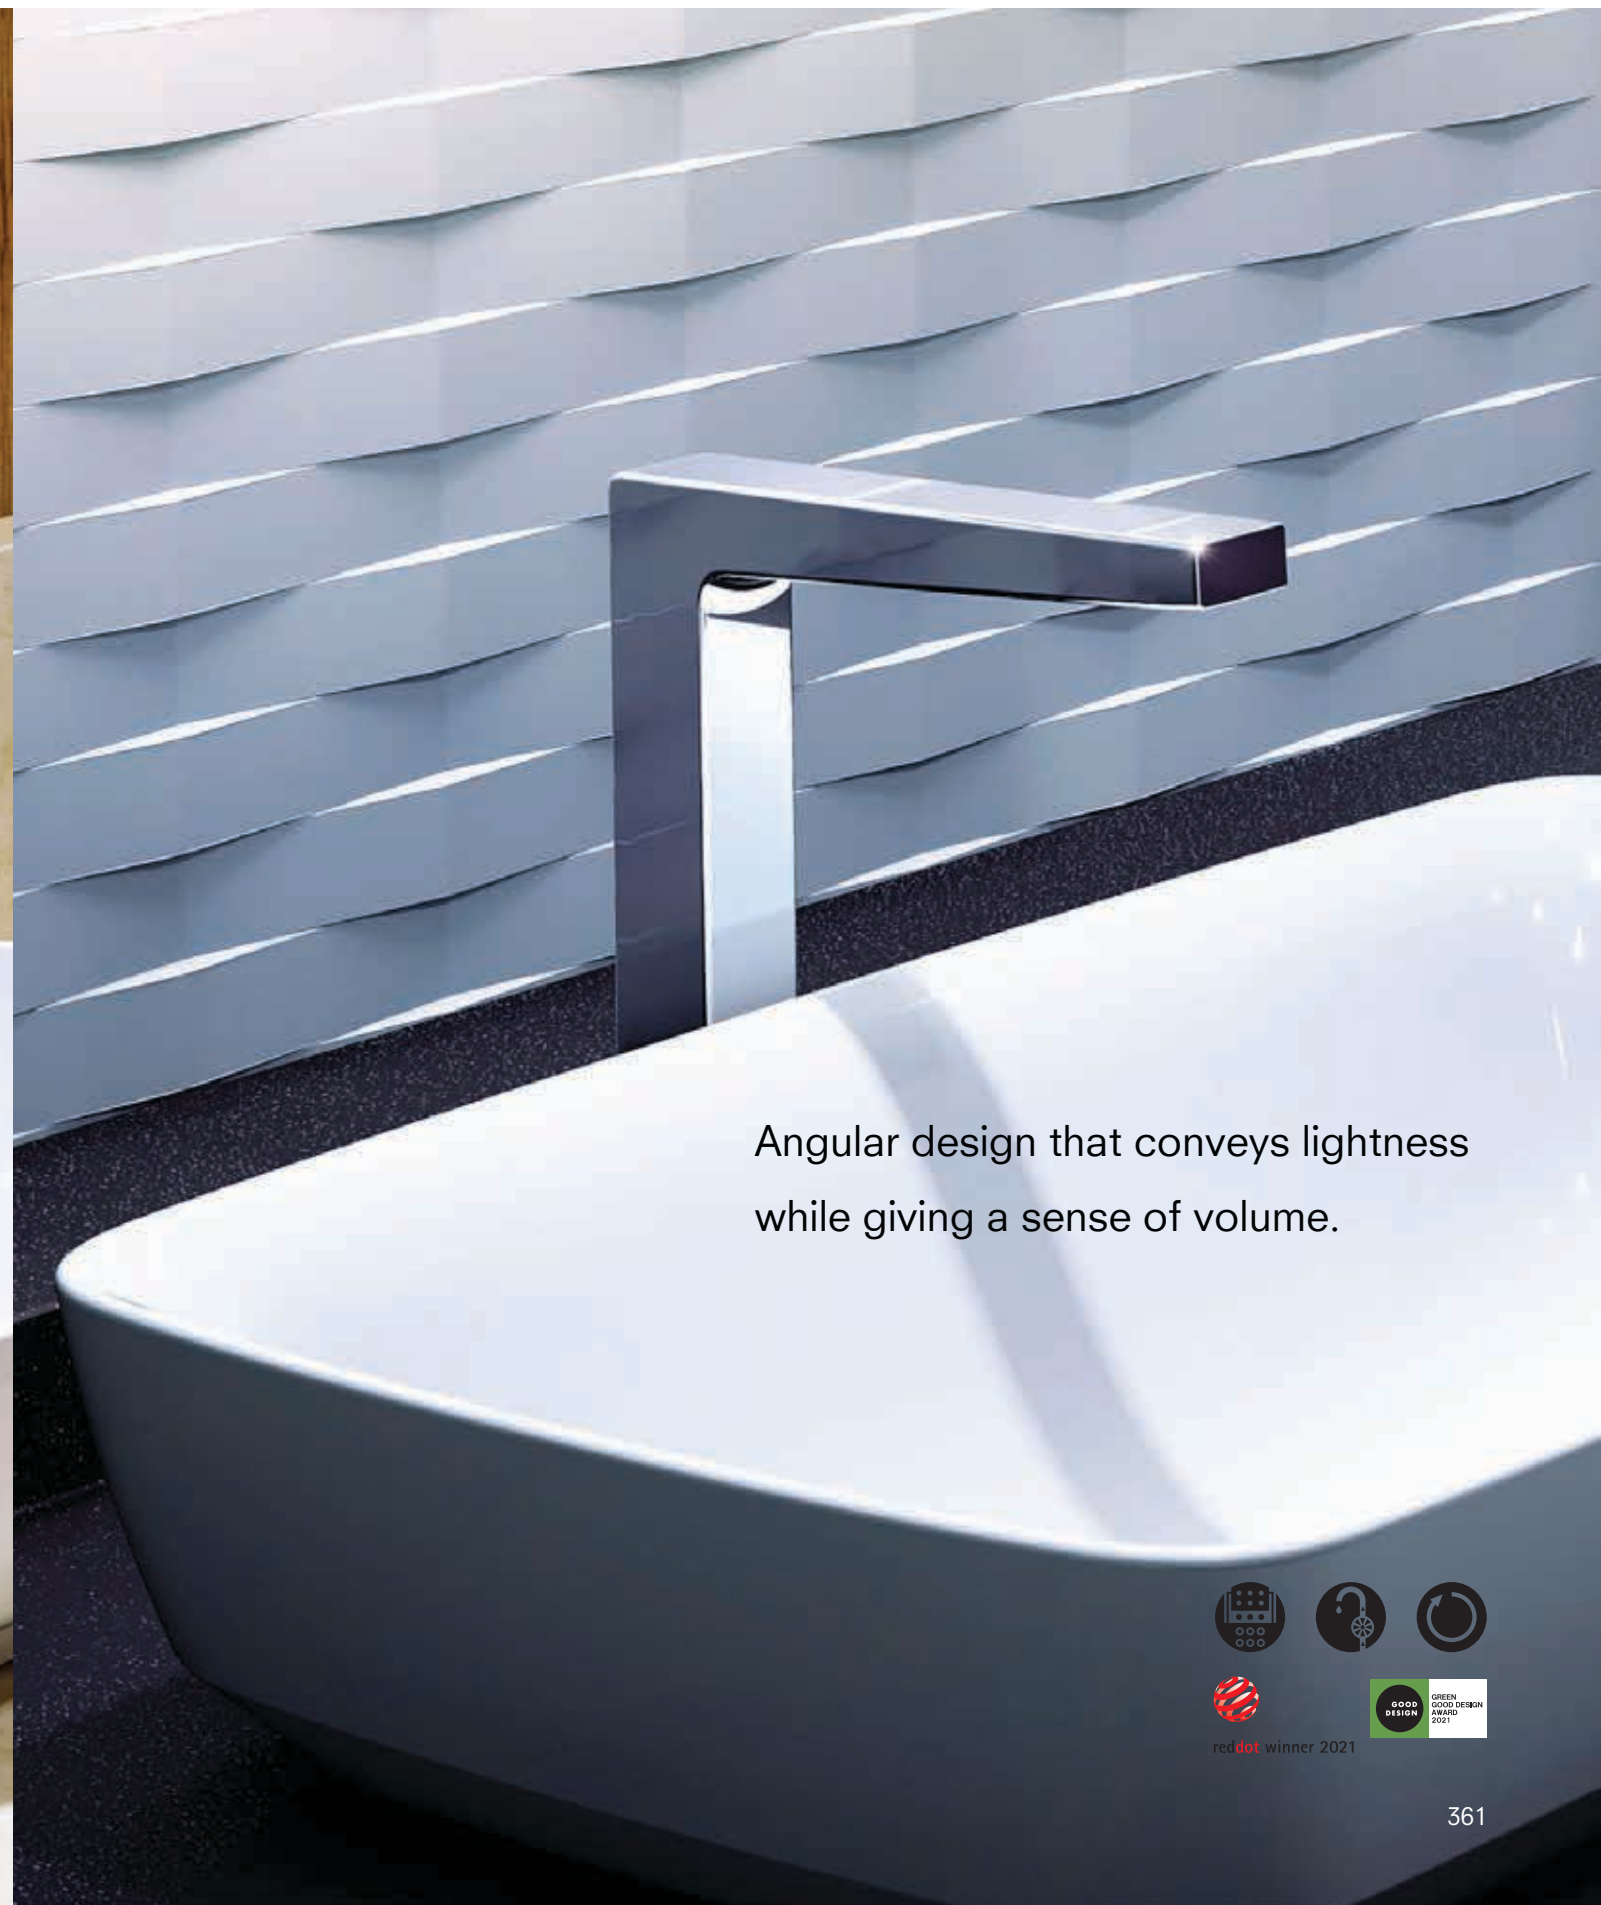

Elegant curved design creating the impression of flowing water.

red dot winner 2021
best of the best

TLE25 series

Angular design that conveys lightness while giving a sense of volume.

red dot winner 2021

TLE26 series

Contemporary design that
strives for ultimate simplicity

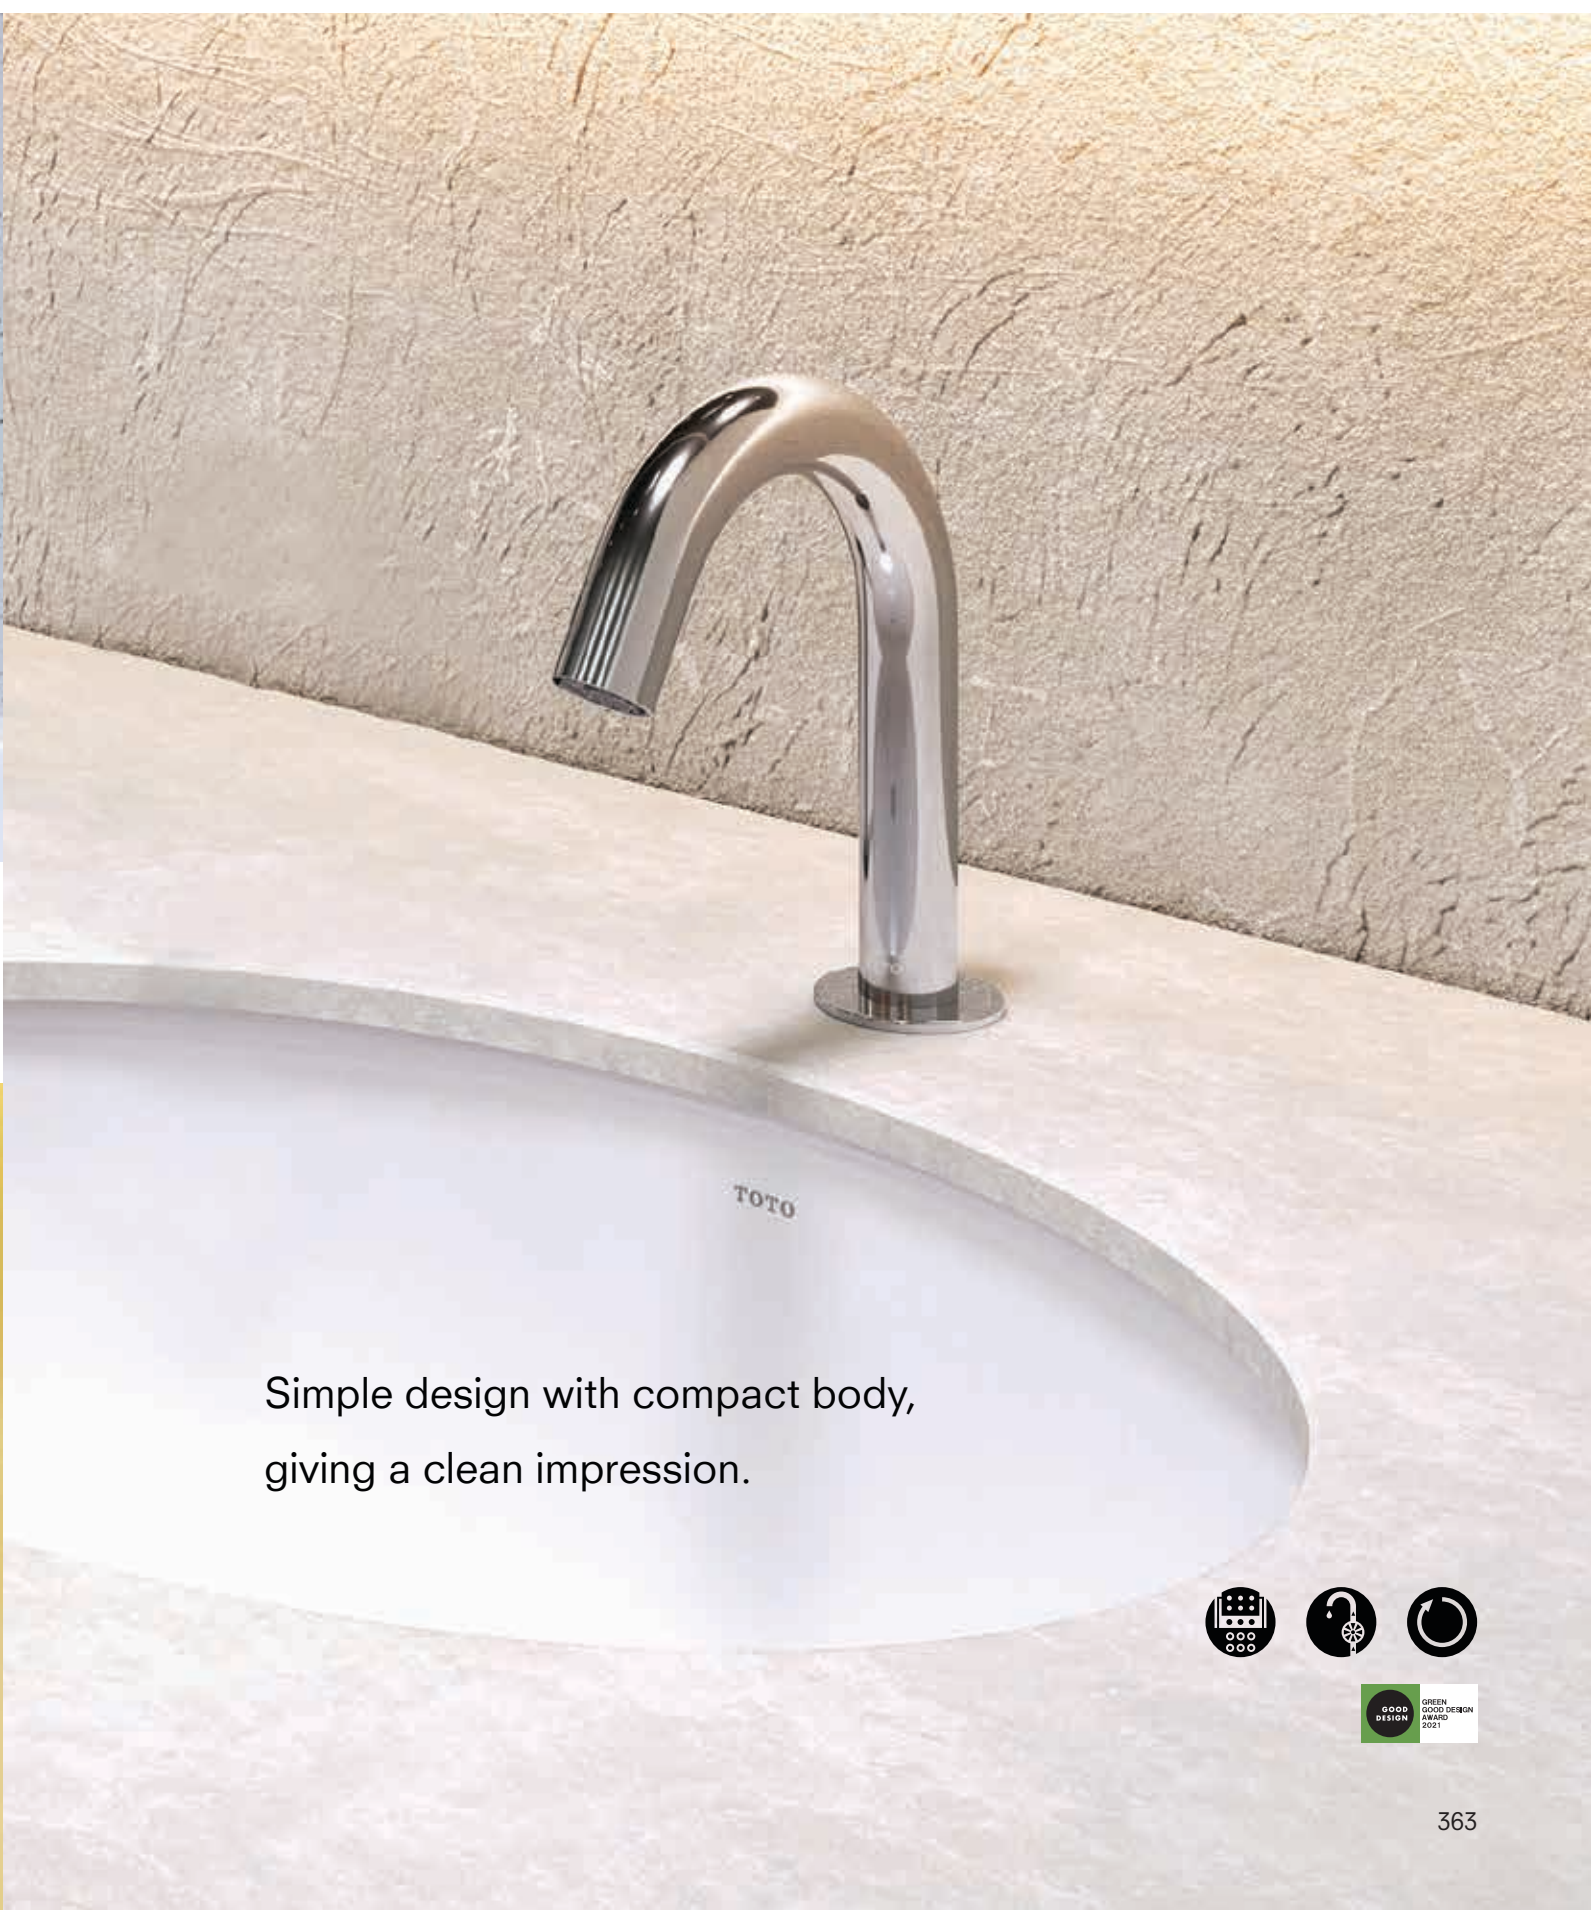

TLE27 series

Neutral design
with emphasized edges.

TLE29 series

Simple design with compact body,
giving a clean impression.

Replete with advanced functions for everything from environmental friendliness to comfort.

 ECOPOWER

This sensor-activated TOUCHLESS FAUCET generates its own electricity. ECOPOWER technology requires no external power source, has no minimum daily usage requirement, and is capable of generating its own power at the ultra-low flow water volume is only 2.0 L/min. ECOPOWER is environmentally sustainable.

 SOFT FLOW

Elegant streams of water from SOFT FLOW faucets gently touch skin. A premium calming experience. Soft and soothing. Sensor-operation eliminates the need for levers or buttons to touch, offering a new level of cleanliness for your health and wellbeing.

Applicable model: TLE21, TLE24

 ECO CAP

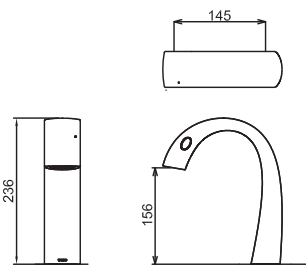

ECO CAP is an air-injection technology, which reduces water consumption. Aerating the water increases it's volume, so you can wash your hands with full stream while using less water.

TLK07001G
Touchless Soap Dispenser(Short)
Size : Dia 40 x 140D x 77H mm

TLK01104AA
Touchless Soap Dispenser(Controller)

DSE101KP
Touchless Soap Dispenser
DC type: 4 x D15V Battery
Size : 41W x 131D x 114H mm

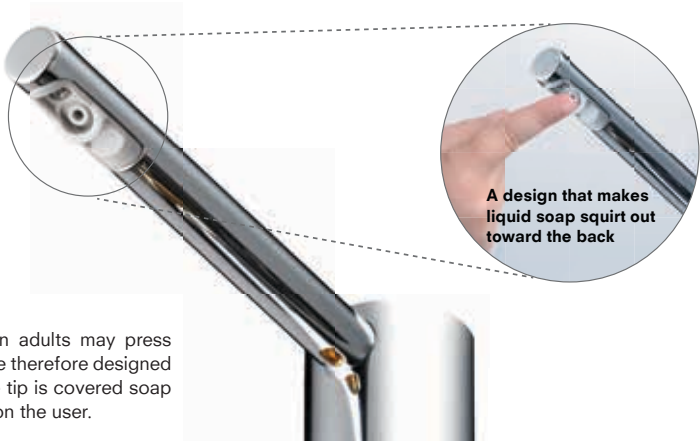

Functions and durability that prevent malfunction and troubles due to misuse or vandalism.

A wide variety of people utilize public spaces, from small children to adults, and misuse or vandalism can lead to malfunctions and other troubles. TOTO automatic soap dispensers have functions and durability to minimize breakdowns and troubles, regardless of the circumstances.

Designs that prevent liquid soap from getting on people.

Children sometimes play with automatic soap dispensers, and even adults may press against the spout, having confused them with push-type dispensers. We therefore designed our spouts with a groove so that when liquid soap is dispensed, if the tip is covered soap will squirt out toward the back, not in a way that will cause it to spray on the user.

A spout structure designed for strength, difficult to break.

Assuming that strong forces might be applied to the spout tip, we inserted a pipe within the base for increased strength. Even if the spout is damaged, this prevents cracking and breaking at the base.

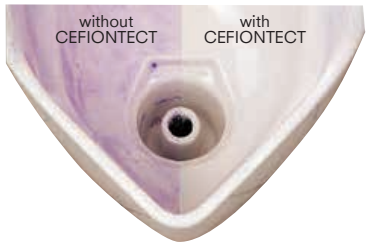

URINALS

URINALS

Bringing a whole new level of hygiene with TOTO integrated urinal

Integrated with EWATER+ that are electrolyzed water that will help to reduce waste and dirt. It helps to break down organic matters found on the urinal.

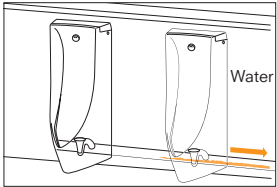

A super smooth ion barrier glazing on the urinal. Helps prevent stains event after a long term usage

SUPPRESSES bacteria growth in the trap of urinal

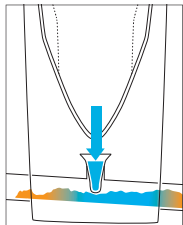

Regularly spray EWATER+ to effectively inhibit pollution in the trap area

Urinal Automatic Interval Flush

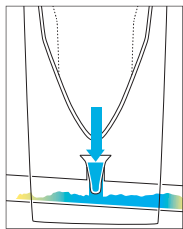

Every 2 hours, it will flush automatically

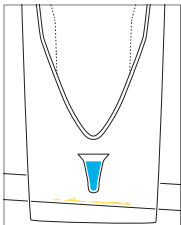

Schedule Flush

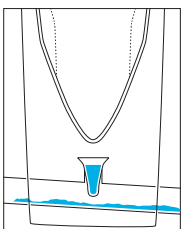

1) The first initial flush will clear the drain pipe to avoid any harden debris.

3) The second schedule flush will then further dilute the urine concentrate and make the pipe cleaner

2) 1st Flush State

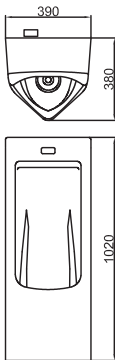

4) 2nd Flush State

Urinary Concentrates

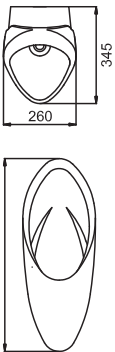

USWN810B#XW
Floor Mounted Urinal
w/ Built in Sensor (Battery Operated)
Flush Volume : 1.9L (Optional Pre Flush 1.2L)

USWN810BE#XW
Floor Mounted Urinal
w/ Built in Sensor (AC 220V operated)
Flush Volume : 1.9L (Optional Pre Flush 1.2L)
Size : 390W x 380D x 1020H mm

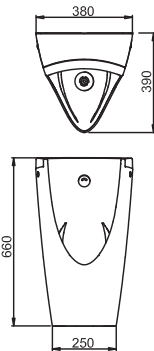

UW904M#NW1
Wall Hung Urinal (Top Inlet)
with Wall Flange
Flush Volume : 0.5L (Min) &
1.9L(Max) Capacity

UW904VM#NW1
Wall Hung Urinal (Back Inlet)
with Wall Flange
Flush Volume : 0.5L (Min) & 1.9L (Max) Capacity
Size : 260W x 345D x 675H mm

USWN902AS#XW
Wall Hung Urinal (AC EWATER+ Type)
W/Built-in Sensor
Water Pressure : 0.07MPa ~ 0.75MPa
Flush Volume : 0.50L
Power Rating : 220~240V, 50/60Hz
Size : 380W x 390D x 660H mm

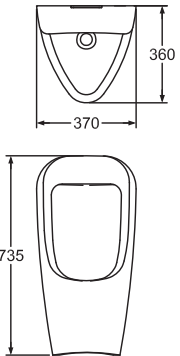

UW350HJT1#W
Wall Hung Urinal (Back Inlet)
Flush Volume : 1.9L (Min) & 5.0L (max) Capacity
Size : 370W x 360D x 735H mm

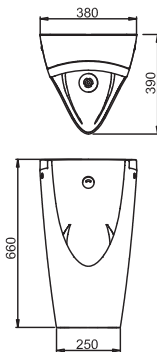

T025005
Flexible Hose

T62-16V1
Inlet Spud

TX253U
Wall Flange

USWN902AE#XW
Wall Hung Urinal (AC Type)
W/Built-in Sensor
Water Pressure : 0.07MPa ~ 0.75MPa
Flush Volume : 0.5L
Power Rating : 220~240V, 50/60Hz
Size : 380W x 390D x 660H mm

U57K#W
Wall Hung Urinal (Back Inlet)
Flush volume : 1.9L (Min) & 5.0L (Max)
Capacity
Size : 330W x 310D x 605H

T025005
Flexible Hose

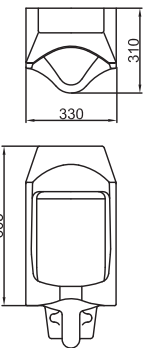

T62-16V1
Inlet Spud

T64BW#W
Wall Flange

T9RA#W
Hanger & Screws (1 Piece)

U57#W
Wall Hung Urinal (Top Inlet)
Flush volume: 1.9L (Min) & 5.0L (Max) Capacity

T62-16
Inlet Spud

UW104HJ#W
Wall Hung Urinal (Back Inlet)
Flush volume: 1.9L (Min) & 5.0L (Max) Capacity
Size : 320W x 340D x 540H mm

T025005
Flexible Hose

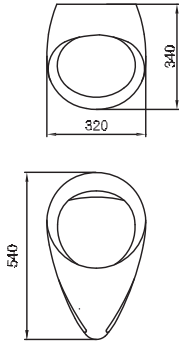

TX803UV1
Inlet Spud

T64BW#W
Wall Flange

T9RA#W
Hanger & Screws (1 Piece)

U104#W
Wall Hung Urinal (Top Inlet)
Flush volume: 1.9L (Min) & 5.0L (Max) Capacity

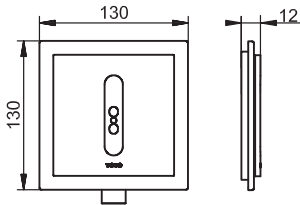

T62-16
Inlet Spud

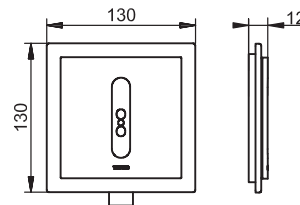

FLUSH VALVE FOR URINALS

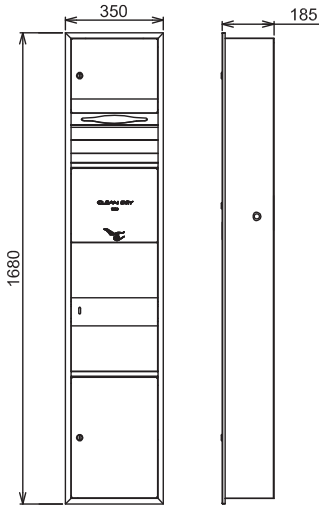

DUE114UPE
Urinal Sensor, Flush Valve
(AC-220v, ABS Cover)
Flush Volume : 1.9L (Optional Pre Flush 1.2L)
Size : 130W x 12D x 130H mm

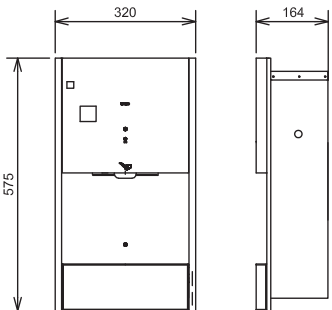

DUE114UPK
Urinal Sensor, Flush Valve
(Battery, ABS Cover)
Flush Volume : 1.9L (Optional Pre Flush 1.2L)
Size : 130W x 12D x 130H mm

TYC602P
High Speed Hand Dryer
w/ Paper Dispenser and Waste bin
(Wall Embedded Type)
Air Heater On/ Off
AC 220-240V
Size : 350W x 185D x 1680H mm

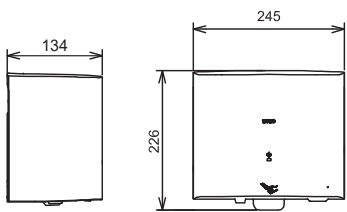

TYC602
High Speed Hand Dryer
(Wall Embedded Type)
Air Heater On/ Off
AC 220-240V
Size : 320W x 164D x 575H mm

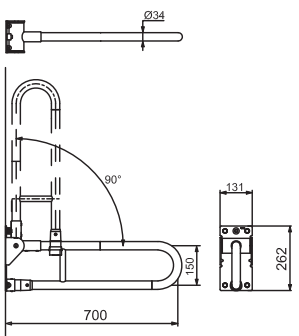

TYC322M
High Speed Hand Dryer
Air Heater On/ Off
AC 220-240V
Size : 245W x 134D x 226H mm
